Accountability and Executive Power in Europe Marcel Morabito, Guillaume Tusseau, 2024-04-09 This book discusses the major issues currently affecting the accountability of executive power in Europe. The work is divided into three parts. The first examines the territorial dimension including unitary, regional and federal. It discusses how territorial actors participate in strengthening or weakening the implementation of accountability of executive power in modern democratic States. The second part explores the links between national traditions and European accountability of executive power to establish a common European culture. The third and final part focuses on how to build a truly multidisciplinary approach to accountability of executive power and draws on legal, historical and political approaches. The volume will be an invaluable resource for researchers, academics and policy makers in constitutional law and politics, public law, comparative law, legal history and government.

[The Routledge Handbook of Translation and Ethics](#) Kaisa Koskinen, Nike K. Pokorn, 2020-12-16

The Routledge Handbook of Translation and Ethics offers a comprehensive overview of issues surrounding ethics in translating and interpreting. The chapters chart the philosophical and theoretical underpinnings of ethical thinking in Translation Studies and analyze the ethical dilemmas of various translatorial actors including translation trainers and researchers. Authored by leading scholars and new voices in the field, the 31 chapters present a wide coverage of emerging issues such as increasing technologization of translation, posthumanism, volunteering and activism, accessibility and linguistic human rights. Many chapters provide the first extensive overview of the topic or present new takes on established areas. The book is divided into four parts, with the first covering the most influential ethical theories. Part II takes the perspective of agents in different contexts and the ethical dilemmas they face, while Part III takes a critical look at central institutions structuring and controlling ethical behaviour. Finally, Part IV focuses on special issues and new challenges and signals new directions for further study. This handbook is an indispensable resource for all students and researchers of translation and ethics within translation and interpreting studies, multilingualism and comparative literature.

[Ethics and Anthropology](#) Carolyn Fluehr-Lobban, 2013-10-03 Ethics and Anthropology comprehensively embraces issues and dilemmas faced in all four of the discipline's fields. Not merely a subject to be considered when seeking the approval of institutional review boards, ethics is anthropology. Fluehr Lobban explores the critical application of core ethical principles: do no harm, apply informed consent in all stages of research, practice transparency, collaborate from the initial stages of crafting a proposal and executing research through writing and publication of findings. She provides a frank, up-to-date consideration of best practices and trends and incorporates recommendations from the most recent AAA Code of Ethics. To help students understand the art of ethics in principle and in practice, she draws on anthropological history and discourse as well as cross-cultural and
