**Invoking the Beyond:** Paul D. Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

the truth about UFOs in America Mark Pilkington and John Lundberg uncover a 60 year old story stranger than any conspiracy thriller Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage psychological warfare and advanced military technology Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe As he crossed the US meeting intelligence agents disinformation specialists and UFO hunters Pilkington was confronted with a dizzying array of ever more outrageous claims and counter claims As a result he began to suspect that instead of covering up stories of crashed flying saucers alien contacts and secret underground bases the US intelligence agencies had actually been promoting them all along Meanwhile he has to deal with his own uncertainties the suspicions of the UFO community and a partner who is starting to believe that conspiracy theorists might be right after all With a fresh funny and objective approach Pilkington is the ideal guide to steer us through these strange territories where nothing is quite as it seems and reality is just a matter of managing perceptions    **Sessional Papers** Ontario.
