The Unheralded Edwin Gere, 2004-08-01 In June 1948 the Soviet Union cruelly imposed a total blockade on Berlin's western sectors forcing the United States and Great Britain to mount a gigantic airlift to keep the city alive Through personal stories of those who were there in this greatest humanitarian undertaking in modern history The Unheralded paints a vivid picture of what the Berlin blockade and airlift were really like
The Berlin Blockade Walter Phillips Davison, 1980-01-01

To Save A City: The Berlin Airlift, 1948-1949 [Illustrated Edition] Roger G. Miller, 2015-11-06 Includes 30 Illustrations In this expert survey Air Force Historian Robert Miller explores the Epic story of the Berlin Airlift the confrontation of Democracy and Communism as the world teetered on the brink of the Third World War The Berlin blockade 24 June 1948 12 May 1949 was one of the first major international crises of the Cold War During the multinational occupation of post World War II Germany the Soviet Union blocked the Western Allies railway road and canal access to the sectors of Berlin under allied control The Soviets offered to drop the blockade if the Western Allies withdrew the newly introduced Deutschmark from West Berlin In response the Western Allies organised the Berlin airlift to carry supplies to the people in West Berlin Aircrews from the United States Air Force the British Royal Air Force the Royal Canadian Air Force the Royal Australian Air Force the Royal New Zealand Air Force and the South African Air Force flew over 200 000 flights in one year providing up to 8 893 tons of necessities daily such as fuel and food to the Berliners Neither side wanted a war the Soviets did not disrupt the airlift By the spring of 1949 the airlift was clearly succeeding and by April it was delivering more cargo than had previously been transported into the city by rail On 11 May 1949 the USSR lifted the blockade of West Berlin The Berlin Crisis of 1948 1949 served to highlight competing ideological and economic visions for post war Europe particularly Germany The clash ultimately led to the division of that country into East and West and to the division of Berlin itself
To Save a City Roger Gene Miller, 1998 Like the rest of Germany Berlin had suffered enormous damage In May 1945 2.8 million people remained in the city down from a prewar population of 4.6 million In the confusion of ending the war Allied planners overlooked a significant detail no formal agreement guaranteed Western access by surface transportation Air routes were another matter in 1945 concerns about air safety led to a written guarantee signed by all participating nations The wartime illusion that the United States could work with a friendly Soviet Union died a relatively quick and probably inevitable death in the post war period Unification of the Western zones of occupation meant introducing a single currency

that would be outside Soviet control In response Stalin ordered a progressively tightening blockade around the city

City Under Siege Michael D. Haydock, 1999 1998 is the fiftieth anniversary of the blockade and airlift *The Berlin Airlift* Barry Turner, 2017-10-05 Acclaimed historian Barry Turner presents a new history of the Cold War s defining episode Berlin 1948 a divided city in a divided country in a divided Europe The ruined German capital lay 120 miles inside Soviet controlled eastern Germany Stalin wanted the Allies out the Allies were determined to stay but had only three narrow air corridors linking the city to the West Stalin was confident he could crush Berlin s resolve by cutting off food and fuel In the USA despite some voices still urging America first it was believed that a rebuilt Germany was the best insurance against the spread of communism across Europe And so over eleven months from June 1948 to May 1949 British and American aircraft carried out the most ambitious airborne relief operation ever mounted flying over 2 million tons of supplies on almost 300 000 flights to save a beleaguered Berlin With new material from American British and German archives and original interviews with veterans Turner paints a fresh vivid picture the airlift whose repercussions the role of the USA as global leader German ascendancy Russian threat we are still living with today **Berlin on the Brink** Daniel F. Harrington, 2012-05-15 This study examines the Berlin question from its origin in wartime plans for the occupation of Germany to the Paris Council of Foreign Ministers meeting in 1949 Tracing the blockade s origins it explains why British and American planners during the Second World War neglected Western access to post war Berlin and why Western officials did little to reduce Berlin s vulnerability as Cold War tensions increased *The Berlin Blockade* Ann Tusa, 1988 The Berlin Airlift Charles River Charles River Editors, 2015-10-08 Includes pictures Includes accounts of the blockade and airlift by Berliners American officials and pilots Includes online resources and a bibliography for further reading Includes a table of contents Here in Berlin one cannot help being aware that you are the hub around which turns the wheel of history If ever there were a people who should be constantly sensitive to their destiny the people of Berlin East and West should be they Martin Luther King Jr In the wake of World War II the European continent was devastated and the conflict left the Soviet Union and the United States as uncontested superpowers This ushered in over 45 years of the Cold War and a political alignment of Western democracies against the Communist Soviet bloc that produced conflicts pitting allies on each sides fighting even as the American and Soviet militaries never engaged each other Though it never got hot between the two superpowers the Cold War was a tense era until the dissolution of the USSR and nothing symbolized the split more than the division of Berlin Berlin had been a flashpoint even before World War II ended and the city was occupied by the different

Allies even as the close of the war turned them into adversaries. If anyone wondered whether the Cold War would dominate geopolitics, any hopes that it wouldn't were dashed by the Soviets' blockade of West Berlin in April 1948, ostensibly to protest the currency being used in West Berlin but unquestionably aiming to extend their control over Germany's capital. By cutting off all access via roads, rail, and water, the Soviets hoped to force the Allies out, and at the same time, Stalin's action would force a tense showdown that would test their mettle. In response to the blockade, the British, Americans, Canadians, and other Allies had no choice but to either acquiesce or break the blockade by air, hoping correctly that the Soviets wouldn't dare shoot down planes being used strictly for civilian purposes. Over the course of the next year, over 200,000 flights were made to bring millions of tons of crucial supplies to West Berlin, with the Allies maintaining a pace of landing a plane in West Berlin every 30 seconds at the height of the Airlift. As the success of the Berlin Airlift became clear, the Soviets realized the blockade was ineffective, and both sides were able to save face by negotiating an end to the blockade in April 1949, with the Soviets ending it officially on May 12. The Airlift would technically continue until September, but for all intents and purposes, the first crisis of the Cold War had come to an end, and most importantly, the confrontation remained cold. For the next decade, West Berlin remained a haven for highly educated East Germans who wanted freedom and a better life in the West, and this brain drain was threatening the survival of the East German economy. In order to stop this access to the West through West Berlin, it had to be cut off, so in August 1961, Soviet premier Nikita Khrushchev authorized East German leader Walter Ulbricht to begin construction of what would become known as the Berlin Wall. The wall, begun on Sunday, August 13, would eventually surround the city in spite of global condemnation, and the Berlin Wall itself would become the symbol for Communist repression in the Eastern Bloc.

The Berlin Airlift: The History and Legacy of the First Major Crisis of the Cold War chronicles the history that led to the Soviet blockade and the famous relief efforts undertaken to beat it. Along with pictures of important people, places, and events, you will learn about the Berlin Airlift like never before, in no time at all. [The Berlin Airlift and the Making of the Cold War](#) John M. Schuessler, Adam R. Seipp, Thomas D. Sullivan, 2022-06-15. For eleven months that spanned 1948 and 1949, cargo aircraft from the air forces of the western Allies carried out one of the most extraordinary feats of peacetime military power projection in history, ferrying supplies to the city of Berlin, then under Soviet blockade. By spring 1949, the Berlin Airlift, initially considered unlikely to succeed, had convinced the Soviets that their efforts to force a solution to Berlin's future were badly miscalculated. The city became a symbol of the escalating division of Europe into competing blocs in a new Cold War order. This largely improvised military action had exerted unforeseen influence on the post-World War II world. The Berlin Airlift and the Making of the Cold War brings together historians and political scientists to explore the origins, course, and impacts of the Berlin Airlift after seventy years. Here, scholars and authorities on the Airlift, its logistics, the great power competition involved, and the position of Berlin within a divided and occupied Central Europe discuss not only the Airlift itself but also the critical role the operation played in shaping the physical and mental landscape of Cold War

confrontation in Europe The Berlin Airlift was just one of a series of decisions and events that shaped the Cold War across a global stage It was a pivotal moment in the story of how Germany and its people experienced recovery and rebuilding after 1945 This book offers fresh insights into the legacies and lessons of the Airlift in theoretical and historical context To Save a City Roger G. Miller, 2008-04-21 Following World War II the Soviet Union drew an Iron Curtain across Europe crowning its efforts with a blockade of West Berlin in a desperate effort to prevent the creation of an independent democratic West Germany The United States and Great Britain aided by France responded with a daring air logistical operation that in fifteen months delivered almost three million tons of coal food and other necessities to the people of Berlin Now drawing on rare U S Air Force files recently declassified documents from the National Archives records released since the collapse of the Soviet Union and the memories of airlift veterans themselves Roger G Miller provides an original study of the Berlin Airlift The Berlin Airlift was an enterprise of epic proportions that demonstrated the power of air logistics as a political instrument What began as a hastily organized operation by a small number of warweary cargo airplanes evolved into an intricate bridge of aircraft that flowed in and out of Berlin through narrow air corridors Hour after hour day after day week after week a stream of airplanes delivered everything from food and medicine to coal and candy in defiance of breakdowns inclement weather and Soviet hostility And beyond the airlift itself a complex system of transportation maintenance and supply stretching around the world sustained operations Historians veterans and general readers will welcome this history of the first Western victory of the Cold War Maps diagrams and more than forty photographs illustrate the mechanical inner workings and the human faces that made that triumph possible The Berlin Blockade Walter Phillips Davison, 1954 The Blockade Breakers Helena P Schrader, 2011-09-30 On 24 June 1948 the Soviet Union abruptly closed all land and water access to the Western Sectors of Berlin Over 2 million civilians dependent on the surrounding territory and the West for food fuel and other basic goods were suddenly cut off from all necessities of life The Western Allies had the option of withdrawing their garrisons and allowing the Soviet Union to take control of the entire of city or of trying to supply the city by air Never in history had 2 million people been supplied exclusively by air before None of senior military commanders believed it could be done But the political leadership in London and Washington insisted that it must be done So the largest and most ambitious Airlift in history was set in motion It began without the West really knowing what the Berliners needed in order to survive much less how much those supplies weighed It was launched despite an almost complete absence of aircraft and aircrew resources in Germany and despite the serious inadequacies in airfields and air traffic control It was launched without airlift expertise in theatre or a unified command structure But once it was took wing it flew and turned into something that not even its originators and advocates had ever imagined or expected *The Berlin Airlift* Jonathan Sutherland, Jon Sutherland, Diane Canwell, 2008 In June 1948 Joseph Stalin stopped all road and rail traffic coming into and out of the Allied sector of Berlin He simultaneously cut off all electricity to the city leaving only a 20 mile wide sector of air corridors and one

way to get supplies to desperate starving people The United States using the only method it could led Allies in mobilizing an unprecedented airlift of thousands of tons of supplies each day By September 1948 the airlift was transporting food coal medical supplies and other necessities into West Berlin as aid for the residents At the same time the Russian military threatened to strike down any aircraft caught flying outside of the corridor Finally by April of 1949 Russia announced their intent to end the blockade and in August of the same year the United States airlift operation was terminated The Berlin Wall Crisis Kori Schake, 2002-11-15 This volume highlights the complex intra alliance politics of what was seen as the likeliest flash point of conflict in the Cold War and demonstrates how strongly determinant were concerns about relationships with allies in the choices made by all the major governments It recounts the evolution of policy during the 1958 and 1961 Berlin crises from the perspective of each government central to the crisis one on the margins and the military headquarters responsible for crafting an agreed Western military campaign
