The Case Against Tomorrow:

The Case Against Tomorrow Frederik Pohl, 1970 Case II October 2021 David Gomadza/Tomorrow's World Order vs NHS and its doctors David Gomadza, 2021-10-16 When the system is so crooked and injustice runs rampant When fierce nationalism obstructs the course of justice But its only a matter of time before logic sets in Fighting secret evil systems still rooted in slavery and oppression Part II But just the beginning of Tomorrow s World Order Antitrust Laws The Case of Facebook v FTC TOMORROW'S WORLD ORDER'S PERSPECTIVE David Gomadza, 2021-01-05 It is an unprecedented challenge to strike the correct balance between regulatory burden and trade facilitation that often result in either vicious cycles or virtuous cycles that determine whether corporations and Trusts will merge and grow bigger to take advantage of the often misunderstood and under appreciated concept of economies of scale The antitrust laws had been actively breaking down and enabling Rollback to sizes perceived as manageable and not threats to the governments the FTC and the interstates rather than to competition This has been going on for the past seventy years or even more with little or no progress We believe mankind is still in the defensive stage of development when we should be in networking and cooperation Where we use advanced technology to share ideas and develop technologies that will take us out of this defensive stage The question is this Are the FTC the interstate and the governments doing the right thing in attacking these tech giants Going after each one of them with a direct pre planned goal To interrogate accuse rip them off through fines then break them up into smaller sizes to facilitate competition and provide a free market at the same time creating value for the consumer Then Rollback all to sizes perceived as safe and not threats Or it is time we all argue that these agencies use the Rule of Reason as we believe that not all corporations or antitrust are evil Some are good and are the only ones to take us to the next stage of development Is it not time to let these tech giants lead the way Do you know that 70 % or more of the most powerful entities in the world are corporations and Trusts Big enough with vast resources to turn things around for us Is it not time to let these lead the way Is it not also time for a new global legal framework Surely the growth of these has surpassed those at the time the Sherman Act was enacted in 1890 when the Federal Trade Commission and the Department of Justice were tasked to deal with these Is it not the time for a real global leader to act as a referee between these FTC interstates governments and these corporations I think it is time for Tomorrow s World Order to guide and act as the overseer To lead mankind to the next stage of development Surely we can t afford to waste any more time The context in which these antitrust laws were enacted must be considered We think it is not only a miscarriage of justice but grossly flawed and a criminal offence on the part of the Federal Trade Commission and its allies to consider that carrying out a SWOT analysis and acting on the results is an anti competitive tactic Remember they follow the legal corporations or company s act When this tactic is a legally approved method to deal with the issues of the lack of incentives to invest The need to merge and gain economies of scale to overcome and conquer the vicious cycle and go to the virtuous stages Corporations do what they do because this is the only

way they can go to the next stage A stage that will see them realise economies of scale and be able to offer the highest quality products at lower prices different from what the FTC and its allies are regarding as benefits What can be beneficial to the consumers if the products are okay cheaper But of poor quality as compared to what can be achieved What do you call competition and variety when you refer to small sized early entry companies most of whom only make a profit to remain in business without any to invest That makes us ask What are the real motives of these agencies Are they milking these tech giants or planning to Who are the real people or agencies harming the people Are all these agencies clean or they are the worst competition blockers Masters of poor service provisions and involved in human hacking for stealing data secretly and using this to get illegal donations as they pass tips We know tech giants breach privacy and personal data laws too Tom Horn in Life and Legend Larry D. Ball,2014-05-19 Some of the legendary gunmen of the Old West were lawmen but more like Billy the Kid and Jesse James were outlaws Tom Horn 1860 1903 was both Lawman soldier hired gunman detective outlaw and assassin this darkly enigmatic figure has fascinated Americans ever since his death by hanging the day before his forty third birthday In this masterful historical biography Larry Ball a distinguished historian of western lawmen and outlaws presents the definitive account of Horn s career Horn became a civilian in the Apache wars when he was still in his early twenties He fought in the last major battle with the Apaches on U S soil and chased the Indians into Mexico with General George Crook He bragged about murdering renegades and the brutality of his approach to law and order foreshadows his controversial career as a Pinkerton detective and his trial for murder in Wyoming Having worked as a hired gun and a range detective in the years after the Johnson County War he was eventually tried and hanged for killing a fourteen year old boy Horn s guilt is still debated To an extent no previous scholar has managed to achieve Ball distinguishes the truth about Horn from the numerous legends Both the facts and their distortions are revealing especially since so many of the untruths come from Horn s own autobiography As a teller of tall tales Horn burnished his own reputation throughout his life In spite of his services as a civilian scout and packer his behavior frightened even his lawless companions Although some writers have tried to elevate him to the top rung of frontier gun wielders questions still shadow Horn s reputation Ball s study concludes with a survey of Horn as described by historians novelists and screenwriters since his own time These portrayals as mixed as the facts on which they are based show a continuing fascination with the life and legend of Tom Horn Treasure Lust Richard L. Stockdale,2011-10-20 You will get lost in the story of romance and mystery surrounding the Beale Treasure and two missing people Based in the Blue Ridge Mountains of Virginia Treasure Lust captures the scenery and legends that surround the infamous treasure Damon has to outsmart unforeseen enemies and answer unanswerable questions while courting his lifelong crush Lora The outrageous characters and their hidden secrets come to light as investigators dig into the personal history of several influential city figures This digging leads to murder tragic accidents broken relationships and romance Treasure Lust follows in the footsteps of my other two books MANA A loved ones Bi polar Mania and REDRUM Murder in DC

by combining my experiences with fiction to create a story of adventure and mystery My life has given me great insight into people and how they react in many circumstances I was a police officer and detective with three police departments in Virginia One of my daughters was a police detective and my son is now a police officer I served in the U S Army from 1963 to 1966 during the Vietnam Conflict As a Vietnam veteran I have experienced human behavior at its worst and its best As a police officer I have an inside knowledge of the working of not only the police department but also the criminal mind
