## **The Case For Dualism:**

**The Case for Dualism** John R. Smythies, John Beloff, 1989      **Knowledge, Thought, and the Case for Dualism**

Richard Fumerton, 2013-10-17 The relationship between mind and matter mental states and physical states has occupied the attention of philosophers for thousands of years Richard Fumerton's primary concern is the knowledge argument for dualism an argument that proceeds from the idea that we can know truths about our existence and our mental states without knowing any truths about the physical world This view has come under relentless criticism but here Fumerton makes a powerful case for its rehabilitation demonstrating clearly the importance of its interconnections with a wide range of other controversies within philosophy Fumerton analyzes philosophical views about the nature of thought and the relation of those views to arguments for dualism and investigates the connection between a traditional form of foundationalism about knowledge and a foundationalist view about thought that underlies traditional arguments for dualism His book will be of great interest to those studying epistemology and the philosophy of mind      **Knowledge, Thought, and the Case for Dualism** Richard A.

Fumerton, 2013 The relationship between mind and matter mental states and physical states has occupied the attention of philosophers for thousands of years Richard Fumerton's primary concern is the knowledge argument for dualism an argument that proceeds from the idea that we can know truths about our existence and our mental states without knowing any truths about the physical world This view has come under relentless criticism but here Fumerton makes a powerful case for its rehabilitation demonstrating clearly the importance of its interconnections with a wide range of other controversies within philosophy Fumerton analyzes philosophical views about the nature of thought and the relation of those views to arguments for dualism and investigates the connection between a traditional form of foundationalism about knowledge and a foundationalist view about thought that underlies traditional arguments for dualism His book will be of great interest to those studying epistemology and the philosophy of mind      **The Blackwell Companion to Substance Dualism** Jonathan J.

Loose, Angus J. L. Menage, J. P. Moreland, 2018-03-13 **THE BLACKWELL COMPANION TO SUBSTANCE DUALISM** This is a terrific volume by a long way the best currently available anthology on dualism and a worthy addition to Blackwell's distinguished series of Companions Tim Crane Central European University A major contribution to an ongoing transformation of analytic philosophy of mind Howard Robinson Central European University This high quality volume offers a rich variety of perspectives on substance dualism and will be a valuable resource for students and researchers in philosophy of mind and philosophy of religion John Cottingham University of Reading Thorough and fair the quality of the essays is high This will certainly be the book on substance dualism Michael Tye University of Texas at Austin Substance dualism has for some time been dismissed as an archaic and defeated position in philosophy of mind but in recent years the topic has experienced a resurgence of scholarly interest and has been restored to contemporary prominence by a growing minority of philosophers prepared to interrogate the core principles upon which past objections and misunderstandings rest

As the first book of its kind to bring together a collection of contemporary writing from top proponents and critics in a pro contra format the Blackwell Companion to Substance Dualism captures this ongoing dialogue and sets the stage for rigorous and lively discourse around dualist and physicalist accounts of human persons in philosophy Chapters explore emergent Thomistic Cartesian and other forms of substance dualism broadly conceived in dialogue with leading varieties of physicalism including animalism non reductive physicalism and constitution theory Loose Menuge and Moreland pair essays from dualist advocates with astute criticism from physicalist opponents and vice versa highlighting points of contrast for readers in thematic sections while showcasing today s leading minds engaged in direct debate Taken together essays provide nuanced paths of introduction for students and capture the imagination of professional philosophers looking to expand their understanding of the subject Skillfully curated and in touch with contemporary science as well as analytic theology the Blackwell Companion to Substance Dualism strikes a measured balanced between advocacy and criticism and is a first rate resource for researchers scholars and students of philosophy theology and neuroscience

**Knowledge, Thought, and the Case for Dualism** Richard Fumerton, 2013-10-17 This book offers a new rehabilitation of the knowledge argument for dualism demonstrating its interconnection with philosophy of mind

**The Deconstruction of Dualism in Theology** Gillian McCulloch, 2002 Between Horror and Hope is a study of Paul s metaphorical language of death in Romans 6 1 11 The scholarly debate focuses on two main issues the origin of the commentatio mortis tradition and its development Dr Sabou argues that the origin of this terminology is original to Paul that it was the apostle s own insight into the meaning of Christ s death a death to sin and his understanding of the identity of Christ in his death as the anointed davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin On the development of this language of death the author argues that this language conveys two aspects horror and hope The first is discussed in the context of crucifixion in which Paul explains the believer s death to sin by presenting Christ s death as the death of the anointed davidic king who won the victory over sin and death by rising from the dead Paul affirms that believers are coalesced with what was proclaimed about Christ s death and resurrection thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion This crucifixion is the condemnation inflicted on our past lives in the age inaugurated by Adam s sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment In contrast hope is presented in the context of burial The believers burial with Christ points to the fact that they are part of Christ s family and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ s death an act pictured in baptism It is this burial with Christ that allows believers to share with Christ in newness of life

**Views of Nature and Dualism** Thomas John Hastings, Knut-Willy Sæther, 2024-01-19 In the face of the anthropogenic threats to the singular planetary habitat we share with other human beings and non human species humanities scholars feel a renewed sense of urgency 1 to acknowledge the ways our species has funded particular histories

of environmental exploitation alienation and collapse 2 to unpack inherited assumptions that impact our views of nature and interspecies relations and 3 to suggest ways of thinking and acting that seek to repair the damage and promote mutual flourishing for all of earth inhabitants This volume brings together scholars in philosophy theology and religion who take up this urgent ethical task from a broad range of perspectives and locations      **Against the New Constitutionalism** Tamas Gyorf, 2016-09-30 Ever since the Second World War a new constitutional model has emerged worldwide that gives a pivotal role to judges Against the New Constitutionalism challenges this reigning paradigm and develops a distinctively liberal position against strong constitutional review that puts the emphasis on epistemic considerations The author considers whether the minimalist judicial review of Nordic countries is more in line with the best justification of the institution than the Commonwealth model that occupies a central place in contemporary constitutional scholarship      **The Saturday Review of Politics, Literature, Science and Art** ,1877      **Paulinism: The history of Paulinism in the primitive church** Otto Pflleiderer, 1877      Economic Dualism and Agrarian Policies Adina Dabu, Paul D. Aligica, 2020-05-21 This book offers an in depth case study of Romania s land and agricultural reforms from mid 19th century and up to 2000 offering a historical account of agricultural reforms in post communist Romania in the light of more than a century of social and economic development experiments Taking a dual economy analytic perspective the book examines the impact of structural and agricultural reforms on the country s economic development and provides an analysis of the ideas and models that stood behind policy reforms aiming at the modernization of an economy and society defined by dualism and late development
