

# AN OUTLINE OF OCCULT SCIENCE

## CHAPTER I

### THE CHARACTER OF OCCULT SCIENCE

**A**T the present time the words "occult science" are apt to arouse the most divergent feelings. Upon some people they work like a magic charm, like the announcement of something to which they feel attracted by the innermost powers of their soul; to others there is in the words something repellent, calling forth contempt, derision, or a compassionate smile. By many, occult science is looked upon as a lofty goal of human effort, the crown of all other knowledge and cognition; others, who are devoting themselves with the greatest earnestness and noble love of truth to that which appears to them true science, deem occult science mere idle dreaming and fantasy, in the same category with what is called superstition. To some, occult science is like a light without which life would be valueless; to others, it represents a spiritual danger, calculated to lead astray immature minds and weak souls, while between these two extremes is to be found every possible intermediate shade of opinion.

Strange feelings are awakened in one who has attained a certain impartiality of judgment in

# The Character Of Occult Science

**A.P. Sinnett**

A decorative red circular graphic element, resembling a stylized eye or a lens, is positioned to the right of the author's name. It has a gradient from dark red to light red, with a white center.

## **The Character Of Occult Science:**

An Outline of Occult Science Rudolf Steiner, 2023-01-31 An Outline of Occult Science by Rudolf Steiner delves into the hidden aspects of human existence and the universe proposing that beyond the physical world perceived by our senses lies an unseen realm accessible through the development of latent human faculties Steiner begins by addressing the skepticism surrounding occult science acknowledging the diverse reactions it provokes from intrigue to outright dismissal He argues that the visible world alone cannot answer all of life's profound questions and that the unseen world holds the key to understanding the deeper meaning of existence The text introduces the concept of the etheric or vital body a principle that distinguishes living beings from inanimate objects This etheric body according to Steiner is responsible for maintaining the form and function of the physical body preventing its disintegration He emphasizes that while the etheric body is not visible to the ordinary senses its effects can be observed in the organization and vitality of living organisms Steiner also discusses the limitations of contemporary science which often dismisses the notion of a vital force yet he suggests that a renewed interest in such concepts is emerging The book advocates for a balanced approach where the advancements of natural science are complemented by the insights of occult science leading to a more comprehensive understanding of reality Steiner's work encourages individuals to cultivate their inner faculties to perceive the spiritual dimensions of life ultimately enriching their existence and contributing to the evolution of the world

**An Outline of Esoteric Science** Rudolf Steiner, 1997 As vital and relevant as when it was first published in 1910 this masterpiece of esoteric Rosicrucian cosmology on which Rudolf Steiner worked and then reworked for many years making it ever more precise and accurate remains the most effective presentation to date of the spiritual alternative to contemporary materialist cosmologies and the Darwinian view of human nature and evolution In this basic work of spiritual science readers learn how the creation and evolution of humanity is embedded at the heart of the vast invisible web of interacting cosmic beings through whom the alchemical processes of cosmic evolution unfold There are also descriptions of the different bodies of the human being and their relation to sleep and death as well as a detailed practical guide to the methods or exercises including the Rose Cross Meditation by which such initiation knowledge can be attained Most remarkable and revolutionary of all perhaps is the central function that Rudolf Steiner allots to the Christ and to the entrance of Christ into early evolution through the Mystery of Golgotha back cover

The Occult Sciences - A Compendium of Transcendental Doctrine and Experiment Arthur Edward Waite, 2020-07-14 This extensive guide to all things occult deals with magical practices spiritualism mesmerism theosophy necromancy and much more First published in 1923 The Occult Sciences is written by scholarly mystic and poet A E Waite The prolific writer published many works on occult subjects and co created the Rider Waite Tarot deck His vast knowledge of the occult is evident in this informative volume and he touches on many topics including crystal gazing and alchemy This reference guide's contents include Magic Definitions White Magic The Evocation of Angels White Magic The Evocation of the Spirits of The

Elements Black Magic The Evocation of Demons Necromancy The Evocation of the Souls of the Dead Secret Sciences in
