Kleber,Dale Birdsell,1966 Preface This is the first of three volumes devoted to the activities of the Chemical Warfare Service in World War II Part one of the present volume traces the organization and administration of the Chemical Warfare Service from its origins in World War I up through World War II Part two deals with training of military personnel for offensive and defensive chemical warfare in the same period      *The Chemical Warfare Service: Organizing for war* ,1959      *Chemical Warfare Service* Gordon Press Publishers,1996-08-01      *The Chemical Warfare Service* Leo P. Brophy,George J. B. Fisher,1959      **The Chemical Warfare Service: The chemical warfare service; from laboratory to field** ,1959      **The Chemical Warfare Service** Leo P. Brophy,1959 This volume the second in a series of three devoted to the Chemical Warfare Service CWS in World War II now the Chemical Corps covers research development procurement and distribution of chemical warfare materiel It traces the history of these activities from the World War I period when the CWS was activated to supervise the offensive and defensive aspects of gas warfare throughout the Army until the end of World War II The first volume in the series *Organizing for War* discusses the development of the CWS organization and mission as well as personnel management and military

training The third volume entitled Chemicals in Combat will deal with the chemical warfare activities in the theaters of operations In treating research and development the present volume concentrates on CWS projects that proved of greatest significance to the armed forces during World War II It attempts to point up the problems that arose in course of research and development and to indicate the solutions which the scientists hit upon Since research and development in the zone of the interior was closely related to research and development in the theaters of operations the volume covers activities in both areas In contrast to research and development procurement and distribution differed considerably as between the zone of the interior and the theaters of operations in the theaters these activities were closely associated with the commanders combat responsibilities The volume therefore confines itself to a review of procurement and distribution in the zone of the interior leaving narration of theater activities to the volume Chemicals in combat

**The Chemical Warfare Service in World War II** Chemical Corps Association, Washington, D.C.,1948 The CWS prior to world War II Organization for War 1940 1945 Research and development Procurement and supply of CWA materiel for the armed forces Training Readiness for gas Warfare The CWS mission in theaters of operations The 4 2 inch chemical mortar Denying enemy observation Flame throwers By products from the implements of War U. S. Army Chemical Warfare Service Brooks E. **Arsenal of World War II** Paul A. C. Koistinen,2004 Prolific munitions production keyed America s triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen s fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven

with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe

**The Technical Services..** ,1966 Disse bind som omfatter den tekniske tjeneste i den amerikanske hær beskriver kemisk krigsførelse og de grene af hæren der beskæftigede sig med at udvikle organisere og administrere kemisk krigsførelse both offensive and defensive chemical warfare *The Chemical Warfare Service ; Organizing for War* Leo P.
