Color features are the perception and description of human language. It is an important part of the world language. In language, this symbol symbolizes the an understanding of color words. The words of color are generally used in people's cognition and description of the world [1].

Therefore, it is necessary to inherit the colors in human language. Everything in nature, including human language, is in a state of change. The development of language cannot be separated from the development of human language. A more developed language may affect the less developed one. At the same time, it is also conducive to the development of human language in the process of development. In the process of language learning, learners' attention is becoming more and more concentrated[1]. In non-human languages, Kay and McDaniel find an interesting phenomenon, metaphor. Interests Culture A Comparative Study:

Feast as a Mirror of Social and Cultural Changes Frédéric Armao, Božena Gierek, Ilze Kačāne, Tatiana Minniyakhmetova, László Mód, Marek Moroń, Ewa Nowicka, Alīna Romanovska, Monika Salzbrunn, Tigran Simyan, Kiyoshi Umeya, 2020-12-23

Feasting seems to be an inseparable element of peoples especially their collective lives. The proposed volume consists of original unpublished texts in which their Authors search for the answers to the following questions: How far have we gone astray from the primeval idea of celebrating the feast from understanding tradition in terms of the Romanian historian of religion Mircea Eliade or the French sociologist Emile Durkheim? Are there still any traditional in its very meaning feasts? If not, if they are invented (Hobsbawm and Ranger 1983 1992) why are they called traditional? What elements have changed and why? What has had the greatest impact on celebrating feasts? What are the new factors influencing the course of a feast's celebration? It was difficult to categorize the texts contained in this book because the subjects discussed in them very often overlap. Still, it was possible to recognize several accentuated aspects that served as the basis for the division of the book into three sections: 1. Culture and Identity; 2. Ritual and Cultural Values; 3. Culture and Policy. The contributors are scholars who represent various international institutions and fields of research and use different approaches and methodologies to study the subject of the feast. This publication is an opportunity to bring the results of their research together in one book. The volume contains chapters in which various aspects of feasts, festivals, and festivities are perceived as a mirror of social and cultural changes in the twentieth and twenty-first centuries are presented. It provides a unique and rich resource in the fields of culture, folklore, religion, anthropology, sociology, as well as politics and other cultural and social sciences. In the future, we hope to broaden the scope of our research and to include more ethnic groups and their cultures in order to see the changes they have undergone and factors that caused them.
