

(b) Direct costs are production costs.

Discussion: A, B, and C are production costs, whereas selling & administration costs are period costs.

(b) Last month 200,000 units of a product were manufactured, and the total cost per unit was \$200. This month 150,000 units of the same product were manufactured, and the total cost per unit was \$200. The total cost of production for the month was \$30,000 per unit and the total cost is \$30,000,000. The production cost per unit is \$200,000/150,000 units = \$1333.33. Alternatively, when production costs increase, fixed costs do not change because the extra fixed costs is spread over more units, so total cost per unit will decrease.

(b) These costs do not result in any changes.

(b) These costs will increase in total.

(c) These costs per unit will increase.

**(d) These costs per unit will decrease**

Discussion: Previously, the selling cost was \$200/150,000 = \$1333.33. The cost per 150,000 units = \$200,000 units / 150,000 units = \$1333.33. Total cost of \$30,000,000 = \$30,000,000 / 150,000 units = \$200 per unit. Therefore, when production costs increase, fixed costs do not change because the extra fixed costs is spread over more units, so total cost per unit will decrease.

(b) The following costs were incurred in the month:

|                         |           |
|-------------------------|-----------|
| Direct materials        | \$100,000 |
| Direct labor            | \$15,000  |
| Manufacturing overhead  | \$17,000  |
| Selling expenses        | \$14,000  |
| Administrative expenses | \$11,000  |

Discussion: Selling the products resulted:

(a) \$175,000

(b) \$160,000

**(c) \$180,000**

(d) \$140,000

Discussion: Selling costs are direct labor and direct manufacturing costs.

(b) Direct selling costs will be equivalent for \$100,000 per unit. In 200,000 the corresponding fixed costs sales = \$20,000,000. These costs can be seen in the following:

|  |              |
|--|--------------|
| Manufacturing cost per unit                    | \$160,000    |
| Fixed cost of sales                            | \$20,000,000 |
| Manufacturing & selling & administration costs | \$20,000,000 |
| Manufacturing & selling & administration costs | \$20,000,000 |

What is the total contribution of the sales contribution margin?

(a) \$10,000

(b) \$100,000

**(c) \$100,000**

(d) \$1000,000

Discussion: Direct Cost Method: Selling = Direct Materials + Direct Manufacturing Costs + Direct Salaries = \$100,000 + \$160,000 + \$20,000,000 + \$20,000,000 = \$20,000,000.
