The Moonclock

Claudia Von Canon

The Moonclock:

The Moon Clock, 1991 A dramatic adventure with toy soldiers come to life helps Robin discover that she has the courage to stand up to a bully

Annual, Lunar, and Tidal Clocks Hideharu Numata, Barbara Helm, 2015-01-20 There is more to biological rhythms than circadian clocks This book aims at promoting the exciting potential of a deeper understanding of circannual circatidal and circalunar clocks It highlights new developments summarizes existing knowledge and integrates different perspectives with the tools and ideas of diverse fields of current biology For predominantly pragmatic reasons research in recent decades was mostly concerned with circadian clocks Clocks on other timescales however have been largely neglected and therefore still appear enigmatic Thanks to the rapid development of methods in molecular biology as well as in ecology we are now able to re approach these clocks Laboratories around the world are showing fresh interest and substantial progress is being made in many independent projects The book s two sections address the moon derived circatidal circasemilunar and lunar cycles on the one hand 10 chapters and the sun derived circannual cycles on the other 6 chapters This work brings together authors with an expansive array of expertise and study systems ranging from tidal cycles of marine invertebrates to annual cycles of birds and mammals and from behavioral to genetic and epigenetic backgrounds While great challenges remain to be mastered the book aims at conveying the excitement of unraveling broadly the rhythms of life

Intrinsic Clocks Timo Partonen, Daniela D. Pollak, 2018-03-19 Intrinsic Clocks presents an array of current research activities on intrinsic clocks and their contributions to biology and physiology It elucidates the current models for the intrinsic clocks their molecular components and key mechanisms as well as the key brain regions and animal models for their behavioral analysis It provides a timely view on how these clocks guide behavior and how their disruption may cause depressive like behavior and impairment in cognitive functions Thereby any specific method by which the mood related functions of the intrinsic clocks might be influenced bears therapeutic potential and has clinical interest The importance of some of these mechanisms was highlighted by the 2017 award of the Nobel Prize in Physiology or Medicine to Jeffrey C Hall Michael Rosbash and Michael W Young for their discoveries of the genetic control of the daily biological rhythm The key to the explanation was the discovery of transcription translation feedback loops of the so called clock genes

The Moonclock Claudia Von Canon, 1979 The fictional correspondence to and from a Viennese couple during 1683 chronicles domestic and political affairs including the Turks siege of their city

Understanding Einstein's Theories of Relativity Stan Gibilisco, 1991-01-01 Clear concise exposition of both the special and general theories of relativity intended for nonscientific readers with a knowledge of high school math Topics include simultaneity time dilation length contraction the possibility of travel to a distant star non Euclidean geometries black holes and the structure of the universe 158 illustrations

An Introduction to Mechanics Daniel Kleppner, Robert Kolenkow, 2013-11-18 For 40 years Kleppner and Kolenkow s classic text has introduced students to the principles of mechanics Now brought up to date this revised and improved second

edition is ideal for classical mechanics courses for first and second year undergraduates with foundation skills in mathematics The book retains all the features of the first edition including numerous worked examples challenging problems and extensive illustrations and has been restructured to improve the flow of ideas It now features new examples taken from recent developments such as laser slowing of atoms exoplanets and black holes a Hints Clues and Answers section for the end of chapter problems to support student learning and a solutions manual for instructors at www.cambridge.org/kandk
