

A woman with brown hair tied back, wearing a white long-sleeved shirt, stands on a wooden suspension bridge. She is looking out over a lush green tropical landscape with hills and a body of water under a blue sky with scattered clouds. The bridge has thick wooden planks and a metal railing. The scene is captured from a low angle, emphasizing the height of the bridge and the vastness of the landscape.

Benjamin Smith and anti Muslim violence remind us that incidence of deadly bigotry is not only a recurring chapter in U S history but also a part of our present day world Contrary to common belief hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group In fact fewer than 5 percent of identifiable offenders are members of organized hate groups Yet rather than being an individual crime hate crime represents an assault against all members of stigmatized and marginalized communities To fully understand the phenomenon of hate crime and reduce its incidence it is necessary to clearly define the term itself to examine the victims and the offenders and to evaluate the consequences and harms of hate crimes This comprehensive five volume set carefully addresses the disturbing variety and incidence of hate crimes exposing their impacts on the broader realms of crime punishment individual communities and society The contributing authors and editors pay critical attention to cutting edge topics such as online hate crimes hate based music anti Latino hostilities Islamaphobia hate crimes in the War on Terror school based anti hate initiatives and more The final volume of Hate Crimes provides valuable food for thought on possible legislative educational social policy or community organizational responses to the varied forms of hate crime

humanism as a mistaken value framework Indeed the concept of human nature is in fact essential for sociology but is often being denied at the same time as it appears without acknowledgement While classic authors can show us how to connect an ethics with a concept of human nature current humanists must tackle the sociobiological view of human nature and interrogate humanism in the light of the ecological crisis Humanist Realism for Sociologists both explains and explores some of the main arguments surrounding humanism put forward by classic social theorists such as Aristotle Marx and Weber as well as more contemporary authors such as Braidotti Oakley Weedon Firestone Connell Flyvbjerg Foucault and Bourdieu A must have tool for understanding how value perspectives cannot be eliminated from the social sciences this book is essential for undergraduates postgraduates and postdoctoral researchers interested in the fields of sociology anthropology women s studies social work human geography political philosophy and ecology *Paperbound Books in Print* ,1991
