Managing Technology in Society Arie Rip,Thomas J. Misa,J. W. Schot,1995 A fateful conceptual gap separates the policy makers and managers charged with promoting technology and the risk and technology assessors responsible for controlling it This hampers the effective use of many new technologies and prevents the development of others The strategy of constructive technology assessment CTA addresses this gap through facilitating societal learning processes and proposing a shared responsibility for the promotion and control of new technologies Combining analysis of both cases and concepts Managing Technology in Society confronts the underdevelopment of innovative potential for achieving goals of wealth sustainability and safety Factors that block change as well as conditions for successful learning are identified in a wide ranging selection of cases that encompass biotechnology clean technologies information and medical technologies The contributors build on the convergence of recent theories on technical change within economics sociology and the history of technology to offer suggestions for CTA action and so create a new paradigm of managing technology in society BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved   The Innovation Policy of the European Union Susana Borrás,2003-07-29 Recoge Part 1 Informing innovation policy measurement issues Part 2 Improving innovation policy strategic issues   The Politics of Problem Definition David A. Rochefort,Roger W. Cobb,1994 At the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought Policy researchers call this process problem definition Written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action and agenda setting dynamics The authors demonstrate in two theoretical chapters and seven provocative case studies how problem definition affects policymaking for high profile social issues like AIDS drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation By examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes In so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research
