**The Counterintelligence Chronology** Edward Mickolus, 2015-09-15 Spying in the United States began during the Revolutionary War with George Washington as the first director of American intelligence and Benedict Arnold as the first turncoat. The history of American espionage is full of intrigue, failures, and triumphs, and motives honorable and corrupt. Several notorious spies became household names: Aldrich Ames, Robert Hanssen, the Walkers, the Rosenbergs, and were the subjects of major motion pictures and television series. Many others have received less attention. This book summarizes hundreds of cases of espionage for and against U.S. interests and offers suggestions for further reading. Milestones in the history of American counterintelligence are noted. Charts describe the motivations of traitors, American targets of foreign intelligence services, and American traitors and their foreign handlers. A former member of the U.S. intelligence community, the author discusses trends in intelligence gathering and what the future may hold. An annotated bibliography is provided. Written by Hayden Peake, curator of the Historical Intelligence Collection of the Central Intelligence Agency.

**Congressional Record** United States. Congress, The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824*, the *Register of Debates in Congress 1824-1837*, and the *Congressional Globe 1833-1873*.

**The Engineer**, 1875      *Indian Air Force: The Case for Indigenisation* Air Commodore Jasjit Singh, 2013-03-15 Just think the last combat aircraft designed by the 74-year-old HAL Hindustan Aeronautics Ltd with its expansive infrastructure was in the 1950s and it was an excellent aircraft. Thirty years later, an ad hoc interim institution called ADA Aeronautics Development Agency was set to design the LCA Light Combat Aircraft under the DRDO management. Thirty years later, the aircraft has yet to enter service, although the Indian Air Force has ordered 40 aircraft, knowing they do not meet the qualitative requirements set in the early 1980s, leave alone the 21st century. Even the primary trainer for rookie pilots has just begun to be imported. Obviously, something is wrong for a long time, and obviously, it is a systemic problem. This volume sets out to historically examine and present a balanced understatement of the facts. Some of the leading experts in the profession of aerospace identify the problems. The reader is left to form his judgment and what appears an obvious solution. The Air Force is the most concerned stakeholder in the quality and quantity of military aircraft, but it seems to have

been left on the sidelines in the process of to be criticised as being against indigenisation We recognise that India is way behind the developed countries and China now in design and development of military aviation We don't have to go far to find the way ahead Ninety five percent of the Indian Navy's warships and submarines are designed and manufactured in the country though many systems inside like its missiles may be acquired from the best in the world The reason is starkly so simple that South Block itself does not notice it Naval Head Quarters contain within its organisation under the leadership and the Chief of Naval Staff the Directorate of Naval Design as well as the Controller of Warship Production besides the other supporting organisations like WESEE etc Hence when the indigenous INS Delhi sailed out in the 1990s the international community began to look at Indian Navy with new respect Why can't similar system be established for the Army and the Air Force Read the volume to ask your questions and mull over possible solutions *Bulletin of the Atomic Scientists*, 1958-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world
