

# Modelling Belief Dynamics

For a computer scientist the ultimate solution to the problem about belief revision is to develop *algorithms* for computing appropriate revision and contraction functions for an arbitrary belief system.

(Peter Gärdenfors)

The following considerations concern modelling Belief Dynamics (BD) not just in the sense of a formalization, but rather in the sense of building a *computational* model and implementing the corresponding data structures and algorithms of recomputing beliefs. The purpose of such a project is to illustrate some ideas about belief changes in a Web of Beliefs (WoB) to explore and deepen one's understanding of belief changes by trying to implement or improve corresponding algorithms. With implementation one will proceed from more basic models, which make a lot of simplifications, to more extended models, which look more at internal belief structure and employ more refined algorithms.

**The Dynamics of Belief** Don B. Harbuck,1969      **The Dynamics of Thought** Peter Gardenfors,2005-11-10 This book is a selection from the articles that I have written over a period of more than twenty years Since the focus of my research interests has shifted several times during this period it would be difficult to identify a common theme for all the papers in the volume Following the Swedish tradition I therefore present this as a sm rg sbord of philosophical and cognitive issues that I have worked on To create some order I have organized the sixteen papers into five general sections 1 Decision theory 2 belief revision and nonmonotonic logic 3 induction 4 semantics and pragmatics and 5 cognition and evolution Having said this I still think that there is a common theme to my work over the years The dynamics of thought My academic interests have all the time dealt with aspects of how different kinds of knowledge should be represented and in particular how changes in knowledge will affect thinking Hence the title of the book      *The Dynamics of Religion* John Mackinnon Robertson,1897

Understanding the Dynamics of Faith Alozie Israel Ikonne,      *The Dynamics of Faith* Khagendranath Mitra,1952      *The Dynamics of Religion* Peter Slater,1978 A signal contribution to the burgeoning field of comparative philosophy of religion The Dynamics of Religion describes patterns of living faith in major world religions in a way which corrects misperceptions of them as archaic traditions trapped in the past Packed with telling examples this book shows how religions provide meaning and guidance for their followers what the fundamental constituents of all religions are including stories symbols solutions to the mystery of evil and more and how religions are dynamic processes that constantly change and adapt over time The author concludes that truth comes not from the dogmatic retelling of any single master story but from the dynamic interplay between stories old and new What is distinctive in each tradition is not any single set of unchanging meanings but the character of the life lived The Dynamics of Religion is exhilarating and essential reading for anyone interested in the way religion begins structure themselves and develop through time      *Handbook of Financial Markets: Dynamics and Evolution* Thorsten Hens,Klaus Reiner Schenk-Hoppe,2009-06-12 The models of portfolio selection and asset price dynamics in this volume seek to explain the market dynamics of asset prices Presenting a range of analytical empirical and numerical techniques as well as several different modeling approaches the authors depict the state of debate on the market selection hypothesis By explicitly assuming the heterogeneity of investors they present models that are descriptive and normative as well making the volume useful for both finance theorists and financial practitioners Explains the market dynamics of asset prices offering insights about asset management approaches Assumes a heterogeneity of investors that yields descriptive and normative models of portfolio selections and asset pricing dynamics      The Dynamics of Belief Peter Forrest,1986-01-01
