

The decline of the WASP America

American society

Until the age of John F. Kennedy, almost all power in the USA was in the hands of "WASPS". Since then, and although today WASPS remain the largest group in US society, their influence has been in decline. Donald Trump struck a chord with many ordinary white Americans by encouraging the idea that the decline in the supposed traditional (WASP) values in the USA is responsible for the perceived decline of the United States as a nation.

The Decline Of The Wasp:

The Decline of the WASP. Peter Schrag, 1971 In this original and controversial examination of the American experience Peter Schrag traces the rise flowering and fall of the quintessential American type the White Anglo Saxon Protestant founder of the country tamer of the wilderness definer of our history inventor of the Protestant Ethic amasser of the great fortunes but as of 1970 gradually declining into a beleaguered and self critical minority group receding in the rising tide of Jewish writers Black revolutionaries Irish Catholic politicians respectable mafiosi the Others who reject the hegemony and the dreams of the WASP or else embrace and imitate them creating a vast national hinterland of neo WASP styles and artifacts Peter Schrag examines the WASP myth the reality of a WASP imposed culture on a diverse and complex society and the consequences of the WASP's declining power and self confidence At a time when the entire nation was suffering from an identity crisis this book went straight to the basic question of just what an American was is and can be From publisher description

Rethinking Ethnicity Eric P. Kaufmann, 2004 The impact of liberal globalization and multiculturalism means that nations are under pressure to transform their national identities from an ethnic to a civic mode This has led in many cases to dominant ethnic decline but also to its peripheral revival in the form of far right politics At the same time the growth of mass democracy and the decline of post colonial and Cold War state unity in the developing world has opened the floodgates for assertions of ethnic dominance This book investigates both tendencies and argues forcefully for the importance of dominant ethnicity in the contemporary world [Decline of Wasp P](#) Peter Schrag, 1973-03-15 *The Rise and Fall of Anglo-America* Eric P. KAUFMANN, Eric P Kaufmann, 2009-06-30 As the 2000 census resoundingly demonstrated the Anglo Protestant ethnic core of the United States has all but dissolved In a country founded and settled by their ancestors British Protestants now make up less than a fifth of the population This demographic shift has spawned a culture war within white America While liberals seek to diversify society toward a cosmopolitan endpoint some conservatives strive to maintain an American ethno national identity Eric Kaufmann traces the roots of this culture war from the rise of

WASP America after the Revolution to its fall in the 1960s when social institutions finally began to reflect the nation's ethnic composition Kaufmann begins his account shortly after independence when white Protestants with an Anglo Saxon myth of descent established themselves as the dominant American ethnic group But from the late 1890s to the 1930s liberal and cosmopolitan ideological currents within white Anglo Saxon Protestant America mounted a powerful challenge to WASP hegemony This struggle against ethnic dominance was mounted not by subaltern immigrant groups but by Anglo Saxon reformers notably Jane Addams and John Dewey It gathered social force by the 1920s struggling against WASP dominance and achieving institutional breakthrough in the late 1960s when America truly began to integrate ethnic minorities into mainstream culture

Stairway to Paradise Ari Katorza, 2021-09-07 *Stairway to Paradise* reveals how American Jewish entrepreneurs musicians and performers influenced American popular music from the late nineteenth century till the mid 1960s From blackface minstrelsy ragtime blues jazz and Broadway musicals ending with folk and rock n roll The book follows the writers and artists real and imaginative relationship with African American culture's charisma *Stairway to Paradise* discusses the artistic and occasionally ideological dialogue that these artists writers and entrepreneurs had with African American artists and culture Tracing Jewish immigration to the United States and the entry of Jews into the entertainment and cultural industry the book allocates extensive space to the charged connection between music and politics as reflected in the Jewish Black Alliance both in the struggle for social justice and in the music field It reveals Jewish success in the music industry and the unique and sometimes problematic relationships that characterized this process as their dominance in this field became a source of blame for exploiting African American artistic and human capital Alongside this the book shows how black Jewish cooperation and its fragile alliance played a role in the hegemonic conflicts involving American culture during the 20th century Unintentionally it influenced the process of decline of the influence of the WASP elite during the 1960s

Stairway to Paradise fuses American history and musicology with cultural studies theories This interdisciplinary approach

regarding race class and ethnicity offers an alternative view of more traditional notions regarding understanding American music's evolution

Political Volatility in the United States Baodong Liu, 2022-01-13 The unexpected shift from the election of Barack Obama and the post racial hope to the racial confrontations in the Trump era begs the question Why did such a big volatile swing happen in such a short period of time Uncertainty reigns in volatile political times This book aims to provide a systemic model for understanding how political volatility throughout the U.S. history has had its root in two competing racial and religious groupings Moreover the groupings grounded in white supremacy and egalitarianism have collided contested and facilitated the configuration and reconfiguration of the atomic political structure As demonstrated in this book the

antagonism between the two competing identity groupings led to a history of political volatility in the United States Contrary to the endless political deadlocks suggested by the scholars of American political development this book explains how and why the two orders persist reach peaks of volatility and why one temporarily achieves prominence over the other Going beyond the simplistic view of racial and religious hierarchy this book provides an account rooted in structural tensions strategic imperatives opportunities and threats on collective actions *Life* Henry R.
