*The Developing Global Securities Market*, 1987      *Trading around the clock : global securities markets and information technology*. United States. Congress. Office of Technology Assessment, 1990      **Iba developing glob. security market**, 1987-09-30      **International Contracts and National Economic Regulation: Dispute Resolution Through International Commercial Arbitration** Mahmood Bagheri, 2000-12-06

The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions. These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws. The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law, conflict of laws, contract law, and economic regulations are functionally united to resolve international and multifaceted regulatory disputes. He identifies the normative foundation of contract law as an important determinant in this process, contending that contract law is essentially neutral and underpinned by the concept of corrective justice, while economic regulations are mainly prompted by distributive justice. Applying this corrective distributive justice dichotomy to international contracts, the author critically assesses major conflict of laws approaches such as proper law, the Rome Convention, and governmental interest analysis, which could disregard either public interest or private rights. The author, taking these theories into account, proposes an alternative two-dimensional interest analysis approach. He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international commercial arbitration. In adopting this approach, arbitrators would take into account both corrective and distributive justice, and to the extent that corrective justice prevails, would be able to avert a total failure of the contract.      *Press Releases* United States Department of State,      *World Development Indicators 2012* World Bank, 2012-04-18

World Development Indicators 2012 is a compilation of relevant high quality and internationally comparable statistics about development and the quality of people's lives. Organized around six themes: world view, people, the environment, the economy, states and markets, and global links, it aims to put data into the hands of policy makers, development specialists, students, and the public. The full dataset used to produce World Development Indicators contains more than 1,000 indicators for 216 economies, with many time series extending back to 1960. And as a major part of the World Bank's open data initiative, the data are freely available for use and reuse under an open license. A companion printed volume, the little data book 2012, presents a selection of indicators for each economy, and the biennial statistics for small states presents data for less populated developing countries. Any assessment of the Millennium Development Goals must acknowledge that amid all the signs of progress, there are gaps. Some targets will not be reached in this decade or the next. Likewise, the statistical record is still incomplete. Continuing progress will require renewed commitment and careful monitoring.      **World Development Indicators 2011** World

Bank, 2011 World Development Indicators WDI is the World Bank's annual compilation of data about development. This statistical work allows readers to consult over 800 indicators for more than 150 economies and 14 country groups in more than 90 tables. It provides a current overview of regional data and income group analysis in six thematic sections: World View, People, Environment, Economy, States and Markets, and Global Links. This book presents current and accurate development data on both a national level and aggregated globally. It allows readers to monitor the progress made toward meeting the Millennium Development Goals endorsed by the United Nations and its member countries, the World Bank, and a host of partner organizations. These goals, which focus on development and the elimination of poverty, serve as the agenda for international development efforts. The CD-ROM contains time series data for more than 200 economies from 1960-2009, single year observations, and spreadsheets on many topics. It contains more than 1,000 country tables and the text from the WDI 2010 print edition. The Windows-based format permits users to search for and retrieve data in spreadsheet form, create maps and charts, and fully download them into other software programs for study or presentation purposes.

Asia-Pacific Legal Development Gerry Ferguson, 1998-11-01 In this age of globalization, many legal experts see evidence of swift global movement toward an eventual single world legal system. Yet the trend to political and economic integration in some parts of the world is matched by the trend to disintegration in others, where strong cultural and political resistance to external influences exists. *Asia-Pacific Legal Development* traces current and prospective developments in several legal systems of the Asia-Pacific region to make sense of these trends and counter trends. The contributing authors represent a wide variety of specialist expertise, both public and private, and together they encompass the three sectors that constitute a modern system of formal law: the economic, the behavioural, and the civic. Taking into account the opinions and perspectives of both indigenous and non-indigenous experts on topics ranging from prostitution to constitutional law, the book surveys how several ASEAN nations as well as Canada, Australia, and New Zealand are confronting social, economic, and legal change. In the first three parts, chapters are grouped along general sectoral lines to cover economic, civic, and behavioural themes, while in the fourth, cross-sectoral contexts are addressed. With the introduction and concluding chapter, the editors provide an overall integrating framework as well as provocative insights into trends in legal development in the Asia-Pacific region and on comparative legal research and writing in general. *Asia-Pacific Legal Development* is not only an exemplary model for cooperative and comparative legal research and scholarly pluralism, but also a rich study of the increasingly relevant issue of convergence and divergence of legal systems with a unique Asian focus.
