If I Can't Open...I'm Not Closing! Richard Thornton, 2020-01-28 A sometimes humorous account of his experiences in the musical theatre and family life growing up in South Africa **Eye on the Diamonds** Terry Crawford-Browne, 2012-09-28 In 2007 Terry Crawford Browne published the explosive *Eye On The Money* It was primarily an account of the international banking sanctions campaign against apartheid during the 1980s but also dealt with the early stages of the now well documented South African arms deal scandal *Eye On The Diamonds* is a sequel to the earlier book and provides updated information on the uncovering of the scandal Its purpose is to keep the arms deal saga and the venality of the war business in public focus In 2008 Crawford Browne was asked to lead a public interest application to the South African Constitutional Court after huge volumes of evidence confirmed how BAE and other arms companies paid massive bribes to politically well connected members of the African National Congress the so called black diamonds to secure their contracts His application forced President Jacob Zuma s reluctant appointment in October 2011 of a judicial commission of inquiry to investigate the scandal *Eye On The Diamonds* focus on diamonds links the colonial and apartheid histories of South Africa with the close histories of Israel and Palestine It demonstrates how De Beers the South African originated company which dominated the diamond cartel for more than a century is fast losing control to far more ruthless Israeli players Crawford Browne suggests that the diamond trade which is critical to the twenty first century war business makes every diamond a blood diamond Blood diamonds provide the ultimate money laundering opportunity for organised crime while the Israeli war business thwarts efforts at peaceful resolution of conflict Israel itself has become a promised land for organised crime where assassinations money laundering and other criminal activities are justified in the national interest Crawford Browne shows in this well researched and hard hitting book that the international war business and the corruption it unleashes is completely out of control **Spinegrinder** Clive Davies, 2015-03-06 First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer to peer

The Mercenaries P. W. Storm,2009-03-17 Michael Mad Dog Hertzog lived for soldiering but he wasn t willing to die following the orders of bureaucrats and incompetents Now he and his private army of warriors for hire are doing war Dog s way Hertzog s right hand man has vanished along with 30 million of Mad Dog s money The evidence says a trusted British merc has gone rogue but there may be a different more virulent form of treachery at work here There are answers waiting aboard a train racing east from Moscow carrying Russian gangsters stolen Siberian diamonds a shadow team of Iranian agents and a pair of nuclear warheads Suddenly the stakes have gotten perilously high for Mad Dog his team and the world as time ticks rapidly away on a terrifying plot to bathe the Middle East in nuclear fire

The Diamond Invention Edward Jay Epstein,1982 This is a popular and somewhat superficial account of the international diamond industry written by an American journalist The book is based on extensive reading and investigations including visits to several mines in Southern Africa but contains a number of inaccuracies and is not as reliable and informative as the similar account by T Green The world of diamonds London 1981 The major part of the book deals with the role of De Beers and the Central Selling Organization and chapter 4 Holding back the ocean is devoted to the operations in Namibia The author describes how the cartel organizes production and marketing on a global scale and how it has repeatedly interfered in the internal political affairs of African states He predicts a collapse of the monopoly and the disintegration of the industry with profound effects on a country like Namibia which depends heavily on income from the export of diamonds There is also a bibliographic guide to the vast literature on diamonds mining and marketing p 239 56 Eriksen Moorsom 1989
