Franz Wegener, 2013-07-03 What at best has been mentioned in previous monographs about Himmler as the second most powerful man of National Socialism, in passing, the historian Franz Wegener develops in greater depth. Himmler's mind was open to diverse occult influences originating in Germany as well as France. Thus he wrote about a book of the German spiritualist Carl du Prel who experimented with hovering tables and mediums. A small scientific work on a philosophical basis which truly has me believe in spiritualism and was the first to really introduce me to it. He received Gaston de Mengel, a British occultist who wrote for the mysterious occult group of the Polaires in Paris and who collaborated closely with the founder of the esoteric university in Nice. As researched by Wegener, Himmler purchased himself a manual for pendulum practice and pendulum magic and in this way came also in touch with the theory of the gnostic Oedon. He believed in the transmigration of souls, attempted to obtain horoscopes from a Munich astrologer, and his various occult advisors agreed

with the hypotheses of Karl Heise Okkultes Logentum 1921 that occult powers were pulling the strings behind Communists Jews and Freemasons On this background Wegener does not allow Himmler s tendency about occult subjects pass as a mere private matter If Himmler s image of the enemy with respect to Freemasonry and Jews was fed also by occult patterns one can no longer speak of a private matter since the political and by no means private consequence of Himmler s occult world view must be called mass murder **English Mechanic and Mirror of Science and Art** ,1892 The Chautauquan ,1893 **Science and Art of Mining** ,1922 *The Encyclopaedia Britannica* ,1894
