## **The Divinization Of The Christian According To The Greek Fathers:**

**The Divinization of the Christian According to the Greek Fathers** Jules Gross, 2002      **Theosis in the Theology of Thomas Torrance** Myk Habets, 2016-02-17 Torrance's vision of Theosis deification divinisation is explored through his doctrine of creation and anthropology his characterisation of the incarnation his accounts of reconciliation and union with Christ and his theology of church and sacraments Myk Habets study distinguishes Torrance's Reformed vision of theosis from other possible accounts of salvation as divinisation as they are found for instance within patristic thought and Eastern Orthodoxy This book presents the first critique of the theology of T F Torrance to focus on theosis and examines a model of theosis within the realm of reformed theology built upon Western theology      *Called to Be the Children of God* David Vincent Meconi, Carl Olson, 2016-04-19 This book gathers fourteen Catholic scholars to present examine and explain the often misunderstood process of deification The fifteen chapters show what becoming God meant for the early Church for St Thomas Aquinas and the greatest Dominicans and for St Francis and the early Franciscans This book explains how this understanding of salvation played out during the Protestant Reformation and the Council of Trent It explores the thought of the French School of Spirituality various Thomists John Henry Newman John Paul II and the Vatican Councils and it shows where such thinking can be found today in the Catechism of the Catholic Church No other book has gathered such an array of scholars or provided such a deep study into how humanity's divinized life in Christ has received many rich and various perspectives over the past two thousand years This book seeks to bring readers into the central mystery of Christianity by allowing the Church's greatest thinkers and texts to speak for themselves demonstrating how becoming Christ like and the Body of Christ on earth is the only ultimate purpose of the Christian faith      *Deification in the Latin Patristic Tradition* Jared Ortiz, 2019-01-09 It has become a commonplace to say that the Latin Fathers did not really hold a doctrine of deification Indeed it is often asserted that Western theologians have neglected this teaching that their occasional references to it are borrowed from the Greeks and that the Latins have generally reduced the rich biblical and Greek Patristic understanding of salvation to a narrow view of redemption The essays in this volume challenge this common interpretation by exploring often for the first time the role this doctrine plays in a range of Latin Patristic authors      **The Beauty of the Unity and the Harmony of the Whole** Vladimir Kharlamov, 2009-01-01 This book traces the emergence and development of the deification theme in Greek patristic theology and its subsequent transformation into the theology of theosis in Pseudo Dionysius the Areopagite This volume dwells on the deification theme as it is situated in the complex context of its historical development and thus avoids the common tendency to treat this notion of Christian theology in an anachronistic manner Significant attention is given to the influence of Neoplatonism on Pseudo Dionysius His theology is justified neither as essentially orthodox Christian nor as essentially orthodox Neoplatonic Dionysius's sophisticated synthesis of Christian and Neoplatonic elements especially in his exposition of theosis does justice to this anonymous author's originality and demonstrates the

importance of his influence both on the further development of Christian theology and on the advancement of the Neoplatonic tradition The intricate cultural background of the Pseudo Dionysian world helps clarify the formation process of Christian imperial identity and throws additional light on why these works were attributed to Dionysius the Areopagite not as a conscious forgery but as a literary device Such attribution was a common practice of the time Comprehensive analysis of the development of the deification theme opens possibilities for further study of Trinitarian and christological formations of philosophical and individual moral theology of Christian and Neoplatonic mysticism and of cultural studies By surveying the historical development of deification and by opening further areas of research this book serves a valuable introductory source for both professionals and students While primarily focusing on academic interests the book is written keeping the general reading audience in mind as well All quotations of the original texts are provided with existing or new English translations while important Greek terminology is acknowledged Readers interested in Christian spirituality late antiquity early Christian theology and Neoplatonism will find this book useful

*Glimpses of Her Father's Glory* Timothy E. G. Bartel, 2019-06-12 Henry Wadsworth Longfellow's *Evangeline* was a bestseller in nineteenth century America inspiring generations of readers with a heroine who overcomes colonial violence and exile in her romantic and spiritual quest across America Long ignored by modernist scholars *Evangeline* is finally getting the critical attention it deserves Drawing on original research in Longfellow's scholarly manuscripts Bartel explores the theological sources and spiritual world of *Evangeline* arguing that Longfellow was inspired by the church fathers to craft *Evangeline* into a heroine who uniquely exemplifies in her epic quest the ancient Christian doctrines of deification and divine light Bartel's *Glimpses of Her Father's Glory* returns *Evangeline* to its rightful place as a major poem of American literature one that takes as its theme nothing less than the ultimate purpose of human existence

Faith, Reason, and Theosis Aristotle Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit

minimalist affirmation amidst the flow of differences The authors in this volume contribute to the historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God *Christian Scholar's Review* ,2003 The Divinization of Man According to Saint Hilary of Poitiers Philip Theodore Wild,1950 **The Encyclopedia of Christianity** Erwin Fahlbusch,Jan Milič Lochman,John S.
