## **The Drive In The Supermarket And The Transformation Of Commercial Space In Los Angeles 1914-1941:**

*The Drive-In, the Supermarket, and the Transformation Of Commercial Space in Los Angeles, 1914-1941* Richard W. Longstreth, 2000-08-25 Longstreth explores the early development of two kinds of retail space that have become ubiquitous in the United States in the second half of the twentieth century Richard Longstreth is one of the few historians to focus on ordinary commercial buildings buildings usually associated with commercial builders and real estate developers rather than architects and thus generally overlooked by historians of high architecture Here Longstreth explores the early development of two kinds of retail space that have become ubiquitous in the United States in the second half of the twentieth century One external is devoted to the circulation and parking of automobiles on retail premises Longstreth analyzes the origins of this development in the 1910s and 1920s with the super service station and then the drive in market The other type of space internal was introduced soon thereafter with the single story supermarket The most innovative aspect of the supermarket was how its interior was designed for high volume turnover of a large selection of goods with a minimum of staff assistance Longstreth focuses on Los Angeles the principal center for the development of both kinds of space during the period from the mid 1910s to the early 1940s This richly illustrated study integrates architectural cultural economic and urban factors to describe the evolution of retailing and how it has affected the urban landscape

## **Street-Level Architecture** Conrad Kickert, Hans Karssenberg, 2022-08-04

This book provides the tools to maintain and rebuild the interaction between architecture and public space Despite the best intentions of designers and planners interactive frontages have dwindled over the past century in Europe and North America This book demonstrates why even our best intentions for interactive frontages are currently unable to turn a swelling tide of economic and technological evolution land consolidation introversion stratification and contagious decline It uses these lessons to offer concrete locational programming design and management strategies to maximize street level interaction and trust between street level architecture its inhabitants and the city This book demonstrates that designers developers planners and managers ultimately have to create the right preconditions for inhabitants and passersby to bring frontages to life These preconditions connect architecture to its urban social economical and technological context Only the right frontage in the right context with the right design the right inhabitation and the right attitude to the city will become part of the ecosystem of trust and interaction that supports public life This book empowers the many participants in this ecosystem to build inhabit and enjoy truly urbane architecture

## On The Origins of Self-Service

Franck Cochoy, 2015-07-24 Most marketing scholars implicitly consider independent merchants as conservative and passive actors and study the modernization of retailing via department stores chains and supermarkets In this innovative study Franck Cochoy challenges this perspective and takes a close look at the transformation of commerce through the lens of Progressive Grocer an American trade magazine launched in 1922 Aimed at modernizing small independent grocery stores Progressive Grocer sowed the seeds for modern self service which spread in small retail outlets sometimes well before the

advent of the large retail spaces which are traditionally viewed as the origin of the self service economy The author illustrates how this publication had a highly influential role on what the trade considered to be best practice and shaped what was considered to be cutting edge By displacing the consumer and their agency from the centre of analytic attention this innovative book highlights the complex impact of social technical and retailing environment factors that structure and delimit consumer freedom in the marketplace This detailed critical analysis of the origins of self service will be of interest to a wide variety of scholars not only in marketing and consumer research but also in business history sociology and cultural studies

**Food Justice** Robert Gottlieb,Anupama Joshi,2013-01-25 The story of how the emerging food justice movement is seeking to transform the American food system from seed to table In today s food system farm workers face difficult and hazardous conditions low income neighborhoods lack supermarkets but abound in fast food restaurants and liquor stores food products emphasize convenience rather than wholesomeness and the international reach of American fast food franchises has been a major contributor to an epidemic of globesity To combat these inequities and excesses a movement for food justice has emerged in recent years seeking to transform the food system from seed to table In Food Justice Robert Gottlieb and Anupama Joshi tell the story of this emerging movement A food justice framework ensures that the benefits and risks of how food is grown and processed transported distributed and consumed are shared equitably Gottlieb and Joshi recount the history of food injustices and describe current efforts to change the system including community gardens and farmer training in Holyoke Massachusetts youth empowerment through the Rethinkers in New Orleans farm to school programs across the country and the Los Angeles school system s elimination of sugary soft drinks from its cafeterias And they tell how food activism has succeeded at the highest level advocates waged a grassroots campaign that convinced the Obama White House to plant a vegetable garden The first comprehensive inquiry into this emerging movement Food Justice addresses the increasing disconnect between food and culture that has resulted from our highly industrialized food system

*Hell on Wheels* David Blanke,2007 A fascinating look at the rise and growing popularity of the automobile during the first half of twentieth century America which brought with it a dark undercurrent On the one hand Americans embraced the newfound sense of freedom and mobility embodied by the automobile on the other they grew increasingly anxious about and fearful of the enormous threat that cars and car accidents posed to public safety     Car Country Christopher W. Wells,2013-05-15 For most people in the United States going almost anywhere begins with reaching for the car keys This is true Christopher Wells argues because the United States is Car Country a nation dominated by landscapes that are difficult inconvenient and often unsafe to navigate by those who are not sitting behind the wheel of a car The prevalence of car dependent landscapes seems perfectly natural to us today but it is in fact a relatively new historical development In Car Country Wells rejects the idea that the nation s automotive status quo can be explained as a simple byproduct of an ardent love affair with the automobile Instead he takes readers on a tour of the evolving American landscape charting the ways that

transportation policies and land use practices have combined to reshape nearly every element of the built environment around the easy movement of automobiles Wells untangles the complicated relationships between automobiles and the environment allowing readers to see the everyday world in a completely new way The result is a history that is essential for understanding American transportation and land use issues today Watch the book trailer <http://www.youtube.com/watch?v=48LTKOxxrXQ> *Nourishing Networks* Ashley Rose Young,American History Curator Rare Book and Special Collections Division Ashley Rose Young,2025-10-31 Nourishing Networks illuminates the central role that food played in shaping one of the United States most captivating places New Orleans Ashley Rose Young weaves together the story of street food in the Big Easy and the development of the uniquely epicurean city *Journal of the Society of Architectural Historians* Society of Architectural Historians,2000 Includes special issues **Architecture**,2000 *Standardized by Design* Julie Ann Kim,2007 *Los Angeles and the Future of Urban Cultures* Raúl Homero Villa,George J.
