Songs of Spiritual Thought George Rawson,1885 **Metal Music and the Re-imagining of Masculinity, Place, Race and Nation** Karl Spracklen,2020-05-11 Metal is a form of popular music Popular music is a form of leisure In the modern age popular music has become part of popular culture a heavily contested collection of practices and industries that construct place belonging and power **The Shaman and the Heresiarch** Gopal Sukhu,2012-09-01 The first book length study in English of the Chinese classic the Li sao Encountering Sorrow Includes translations of the Li sao and the Nine Songs The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as Chinas first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on

those texts that of Wang Yi back to the quasi divinatory methods of the highly politicized tradition of Chinese classical hermeneutics in general and the political machinations of a Han dynasty empress dowager in particular. It also offers an entirely new interpretation of the *Li sao* one based not on Qu Yuan hagiography but on what late Warring States period artifacts and texts including recently unearthed texts teach us about the cultural context that produced the poem. In that light we see in the *Li sao* not only a reflection of the era of the great classical Chinese philosophers but also the breakdown of the political religious order of the ancient state of Chu.

Drones, Tones, and Timbres

Carole Pegg, 2024-01-09

An indispensable study of the music of Altai Sayan peoples. Based on more than twenty years of collaborative research, Carole Pegg's long awaited participatory ethnography explores how Indigenous nomadic peoples of Russia's southern Siberian republics Altai, Khakassia, Tyva sound multiphonies of place in a post-Soviet global world. Inspired by the mountain steppe ecology and pathways of nomadism, soundscapes created in performative ritual events cross political and multiple world boundaries in a shamanic animist universe, enabling human and spirit actor interactions in a series of sensuous worlds. As with the throat singing for which Indigenous Altai Sayan peoples are famous, senses of place involve sonic relations, rootedness, movement, and plurality. Pegg echoes their drone partials, musical and ontological models, in an innovative theoretical entwinement. Three strands form the book's multivocal drone, the partials of which sound in each chapter ontological sonicality and musicality that enables emplacement and movement. The importance of shamanism, animism, at the core of Indigenous spiritual practices for personhood and community, and the agency of sonic performances. Sounding place, Pegg demonstrates, is essential to the identities, ways of life, and very senses of being of Indigenous Altai Sayan peoples.

Songs of the Shaman

Boudewijn Walraven, 1994

The first book in the English language devoted to the study of Korean shaman songs, this book is essential reading for those with an interest in Korean shamanism, the literature and cultural history of Korea, and shamanism and oral literature in general. Shamanism, commonly regarded as the oldest religion in Korea, is still a force in the modern industrial society of today. Korean shamans performing their rituals sing and dance for the gods they worship as they have done for centuries.

Shaman Ritual Music in Korea

Yong-sik Yi, 2004

The object of this dissertation is to show that Korean shaman ritual performances in their musical and textual structures are not merely mirror representations of the current sociocultural situation of Korea, but they shape the very processes of today's Korean culture. The argument is that although shamanism has been regarded as a marginalized, peripheral cult for a long time, it has played a vital role in the process of re-creating and re-establishing Korean national culture.

I, the Song Adolph L. Soens, 1999

I, the Song is an introduction to the rich and complex classical North

American poetry that grew of and reflects Indian life before the European invasion No generalization can hold true for all the classical poems of North American Indians They spring from thirty thousand years of experience five hundred languages and dialects and ten linguistic groups and general cultures But the poems from these different cultures and languages belong to poetry unified by similar experiences and a shared continent Built on early transcriptions of Native American songs and arranged by subject these poems are informed by additional context that enables readers to appreciate more fully their imagery their cultural basis and the moment that produced them They let us look at our continent through the eyes of a wide range of people poets hunters farmers holy men and women and children This poetry achieved its vividness clarity and intense emotional power partly because the singers made their poems for active use as well as beauty and also because they made them for singing or chanting rather than isolated reading Most strikingly classical North American Indian poetry brings us flashes of timeless vision and absolute perception a gulfs wing red over the dawn snow capped peaks in the moonlight a death song Flowing beneath them is a powerful current the urge to achieve a selfless attention to the universe and a determination to see and delight in that universe on its own terms
