Sons And Brothers:

High Religion Sherry B. Ortner, 2020-09-01 An eminent anthropologist examines the foundings of the first celibate Buddhist monasteries among the Sherpas of Nepal in the early twentieth century a religious development that was a major departure from folk or popular Buddhism Sherry Ortner is the first to integrate social scientific and historical modes of analysis in a study of the Sherpa monasteries and one of the very few to attempt such an account for Buddhist monasteries anywhere Combining ethnographic and oral historical methods she scrutinizes the interplay of political and cultural factors in the events culminating in the foundings Her work constitutes a major advance both in our knowledge of Sherpa Buddhism and in the integration of anthropological and historical modes of analysis At the theoretical level the book contributes to an emerging theory of practice an explanation of the relationship between human intentions and actions on the one hand and the structures of society and culture that emerge from and feed back upon those intentions and actions on the other It will appeal not only to the increasing number of anthropologists working on similar problems but also to historians anxious to discover what anthropology has to offer to historical analysis In addition it will be essential reading for those interested in Nepal Tibet the Sherpa or Buddhism in general **The Record** Sigma Alpha Epsilon, 1936 *Son of Mary* Margaret

Wesley, 2015-08-13 *Son of Mary* offers new solutions to some persistent exegetical problems in the interpretation of three of the most puzzling passages in the Gospel of John and does so in a way that illuminates the social cultural context to the New Testament world Old Testament resonances are heard here afresh The miracle at Cana is seen in the light of God's people living without the wine of God's blessing and Jesus' interaction with his brothers is placed alongside the story of Joseph Margaret Wesley explores the world of kinship relationships in First Century Palestine discovering how an understanding of family expectations and obligations can illuminate Jesus' words and actions and guide our relationships within the church as sisters and brothers of one another and as daughters and sons of God The life death and resurrection of Jesus are understood in a fresh way as the creation of a new family Margaret demonstrates a mastery of current research while drawing on a wide range of primary patristic sources She shows a respectful yet firm and assertive spirit when dealing with controversy The

Viking-age Rune-stones Birgit Sawyer, 2000 There are over 3000 runic inscriptions on stone made in Scandinavia in the late Viking Age This book is the first attempt by a historian to study the material as a whole The analysis reveals significant regional variations that reflect different stages in the process of conversion and the growth of royal power Many monuments were declarations of faith or manifestations of status but virtually all reflect inheritance claims and cast unexpected light on the prehistory of the inheritance customs found in later Scandinavian law codes The results of this analysis make a significant contribution to understanding developments in other parts of the Germanic world as well as Scandinavia The inclusion of a digest of the data base on which this book is based will facilitate further study of this rich vein of evidence
