Sound System Of French:

The Sounds of French Bernard Tranell, 1987-12-25 This introductory textbook is principally addressed to English speakers who want systematically to improve their pronunciation of French whether relative beginners or more advanced students. It describes the difficulties typically encountered, explains why they occur and suggests ways to resolve them. It also explains how certain properties of the French sound system came about as the language changed over time and it includes an examination of the relationship between French spelling and French pronunciation. Although focusing on the pronunciation of standard French, different pronunciations in other varieties of French (Qu bec French, Southern French, etc.) are also considered. In addition, from a more theoretical perspective, the book provides readers with a fundamental understanding of the way French sounds are produced and how they behave according to general linguistic principles. Overall, the book stands as a multifaceted introduction to French sounds, drawing for its account on contrastive analysis, general phonetics, traditional knowledge and modern developments in phonology, historical linguistics and orthography. Teachers of French will welcome Bernard Tranell's wide scholarship and firm grasp of teaching principles while students will welcome the refreshing clarity of style and organization.

French Sound Structure Douglas C. Walker, 2001 A comprehensive, detailed and well-illustrated undergraduate French language linguistics textbook with CD ROM. The book focuses on pronunciation of Modern Standard French and incorporates regional and social variations, abbreviative processes and word play. It looks at historical phonological changes which continue through today. Perfect for readers and learners with little or no formal training in linguistics. The CD ROM provides invaluable oral examples crucial to linguistic study.

The Sound System of French Jean Casagrande, 1984-01-01 *The Classic French Cinema, 1930-1960* C. G. Crisp, 1993 Colin Crisp re-evaluates the stylistic evolution of the classic French cinema and represents the New Wave film makers as its natural heirs rather than the mould breakers they perceived themselves to be.
