Symbolically Speaking:

The Interpretation of Genesis 1:1-3 - Second Edition , Freemasonic Enlightenment in the Context of the Modern and Perfecting Rite of Symbolic Masonry Nicolas Laos, 2023-01-10 This book details a philosophical approach to Freemasonry and a Freemasonic approach to philosophy. It provides a system of esoteric work interdisciplinary education philosophical reflection and social and political thought and a method of understanding the reality of the world and the reality of consciousness. The actual state of Freemasonry is overtaken by inherent old conceptions but this book looks to take Freemasonry from where it is to where it has never been. Thus it exposes the Ritual of the Modern and Perfecting Rite of Symbolic Masonry composed by the author and it explains the ethos the structure and the substantive content of the Autonomous Order of the Modern and Perfecting Rite of Symbolic Masonry of which the author is the Founder and Grand Master. The book expresses a keen longing for unifying all embracing knowledge and for instituting a Freemasonic system that creates unites and supports polymaths for the sake of knowledge and a better world order. As such it presents a creative synthesis between Western esotericism philosophy psychoanalysis sociology political theory political economy mathematics physics and biology

Globalization and Language Vitality Cécile B. Vigouroux, Salikoko S. Mufwene, 2008-11-05 This book discusses the effects of globalization on languages in Africa. In contrast to previous studies the contributors examine whether or not globalization is affecting African languages in the same ways and at the same rate in different countries and how local experiences of language change vary from place to place. Rather than seeing English as the killer language par excellence the contributors probe ways in which languages are being used side by side to complement each other in some contexts while competing against European colonial languages in others. The result is a diverse canvas of language vitality in the African context including matters of endangerment and loss through the lens of globalization in its various interpretations. This book is a must read for students and researchers interested in language change and death and in the fate of European languages in the rest of the world

The Voice as Something More Martha Feldman, Judith T. Zeitlin, 2019-09-30 In the contemporary world voices are caught up in fundamentally different realms of discourse practice and culture between sounding and nonsounding material and nonmaterial literal and metaphorical. In *The Voice as Something More* Martha Feldman and Judith T Zeitlin tackle these paradoxes with a bold and rigorous collection of essays that look at voice as both object of desire and material object. Using Mladen Dolar's influential *A Voice and Nothing More* as a reference point *The Voice as Something More* reorients Dolar's psychoanalytic analysis around the material dimensions of voices their physicality and timbre the fleshiness of their mechanisms the veils that hide them and the devices that enhance and distort them. Throughout the essays put the body back in voice. Ending with a new essay by Dolar that offers reflections on these vocal aesthetics and paradoxes this authoritative multidisciplinary collection ranging from Europe and the Americas to East Asia from classics and music to film and literature will serve as an essential entry point for scholars and students who

are thinking toward materiality **The Meaning of Being Illuminati** Nicolas Laos,2019-05-23 This book articulates a new research program called Ur Illuminism which consists in an integrated and systematic study of humanity's quest for illumination namely for the highest and noblest possible mode of being Thus it takes on the challenge of revising widely accepted ways of understanding and interpreting the ontological underpinnings of civilization and the ontological potential of humanity It allows the reader to delve into a creative rediscovery of Platonism medieval Christian mystics and scholars writings and various illuminist systems from the Orphic mystical cult to the European Enlightenment and thence to the eighteenth century Illuminati fraternities and beyond Moreover the book studies major issues in the history of philosophy politology and esoteric systems such as Hermeticism the Kabbalah alchemy the Rosicrucian movement Freemasonry and the Bavarian Illuminati It maintains that a postmodern rediscovery of premodern metaphysics specifically a postmodern esoteric theocracy as distinct from old sacerdotalism and religious formalism is the best bulwark against oppression and the ontological degradation of humanity as well as the best path to the attainment of that wisdom and spiritual self knowledge which constitute the existential integration and completion of the human being In this context it proposes a peculiar and intellectually fecund synthesis between Tory Anarchism Libertarianism Platonism and Byzantine Hesychasm as they are elucidated here
