Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part, consists of entries grouped by language of origin; some are devoted to individual texts, e.g. the Thousand and One Nights, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators. *Found in Translation* J. Michael Walton, 2006-07-06 In considering the practice and theory of translating Classical Greek plays into English from a theatrical perspective, *Found in Translation*, first published in 2006, also addresses the wider issues of transferring any piece of theatre from a source into a target language. The history of translating classical tragedy and comedy is here fully investigated, demonstrating how, through the ages, translators have wittingly or unwittingly appropriated Greek plays and made them reflect socio-political concerns of their own era. Chapters are devoted to topics including verse and prose, mask and non-verbal language, stage directions and subtext, and translating the comic. Among the plays discussed as case studies are Aeschylus' Agamemnon, Sophocles' Oedipus Tyrannus, and Euripides' Medea and Alceste. The book concludes with a consideration of the boundaries between translation and adaptation, followed by an appendix of every translation of Greek tragedy and comedy into English from the 1550s to the present day. *Classical Reception* Anastasia Bakogianni, Luis Unceta Gómez, 2024-07-22 In a time of acute crisis when our societies face a complex series of challenges—race, gender, inclusivity, changing pedagogical needs, and a global pandemic—we urgently need to reassess the nature of our engagement with the Classical World. This edited collection argues that we need to discover new ways to draw on our discipline and the material it studies to engage in meaningful ways with these new academic and societal challenges. The chapters included in the collection interrogate the very processes of reception and continue the work of destabilising the concept of a pure source.

text or point of origin Our aim is to break through the boundaries that still divide our ancient texts and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world

New Contexts Heidi Hansson,2008 This edited work reintroduces 19th century Irish women novelists and prose writers into the context of literary history and brings new critical and theoretical perspectives to bear on their writing

Politics of Religion/Religions of Politics Alistair Welchman,2014-10-20 The liberal enlightenment as well as the more radical left have both traditionally opposed religion as a reactionary force in politics a view culminating in an identification of the politics of religion as fundamentalist theocracy But recently a number of thinkers Agamben Badiou Tabues and in particular Simon Critchley have begun to explore a more productive engagement of the religious and the political in which religion features as a possible or even necessary form of human emancipation The papers in this collection deriving from a workshop held on and with Simon Critchley at the University of Texas at San Antonio in February 2010 take up the ways in which religion s encounter with politics transforms not only politics but also religion itself molding it into various religions of politics including not just heretical religious metaphysics but also what Critchley describes as non metaphysical religion the faith of the faithless Starting from Critchley s own genealogy of Pauline faith the articles in this collection explore and defend some of the religions of politics and their implications Costica Bradatan teases out the implications of Critchley s substitution of humor for tragedy as the vehicle for the minimal self distancing required for any politics Jill Stauffer compares Critchley s non metaphysical religiosity with Charles Taylor s account of Christianity Alistair Welchman unpacks the political theology of the border in terms of god s timeless act of creation Anne O Byrne explores the subtle dialectic between mores and morality in Rousseau s political ethics Roland Champagne sees a kind non metaphysical religion in Arendt s category of the political pariah Davide Panagia presents Critchley s ethics of exposure as the basis for a non metaphysical political bond Philip Quadrio wonders about the political ramifications of Critchley s own mystical anarchism and Tina Chanter re reads the primal site in the Western tradition at which the political and the religious intersect the Antigone story side stepping philosophical interpretations of the story dominated by Hegel s reading by means of a series of post colonial re imaginings of the play The collection concludes with an interview with Simon Critchley taking up the themes of the workshop in the light of more recent political events the Arab Spring and the rise and fall of the Occupy movement
