Soul Body And Survival Essays On The Metaphysics Of Human Persons:

Soul, Body, and Survival Kevin Corcoran, 2001 How are soul and body related to one another Are human beings immaterial souls or complex physical organisms Will we survive the death of our bodies Does only the dualist view allow the possibility of life after death This collection brings together cutting edge research on the metaphysics of human nature and the possibility of post mortem survival Kevin Corcoran s collection *Soul Body and Survival* includes chapters from those who embrace traditional soul body dualism those who assert person body identity and those who propose entirely new views that fall outside the categories of monism and dualism The first book to connect the metaphysics of persons with the belief in life after death thus intersecting with theological as well as philosophical inquiry it blurs the divide between metaphysics and the philosophy of mind *The Oxford Handbook of Philosophy of Mind* Brian McLaughlin, Ansgar Beckermann, Sven Walter, 2009-01-15 This is the most authoritative and comprehensive guide ever published to the state of the art in philosophy of mind a flourishing area of research An outstanding team of contributors offer 45 new critical surveys of a wide range of topics **The Blackwell Companion to Substance Dualism** Jonathan J. Loose, Angus J. L. Menuge, J. P. Moreland, 2018-03-13 THE BLACKWELL COMPANION TO SUBSTANCE DUALISM This is a terrific volume by a long way the best currently available anthology on dualism and a worthy addition to Blackwell s distinguished series of Companions Tim Crane Central European University A major contribution to an ongoing transformation of analytic philosophy of mind Howard Robinson Central European University This high quality volume offers a rich variety of perspectives on substance dualism and will be a valuable resource for students and researchers in philosophy of mind and philosophy of religion John Cottingham University of Reading Thorough and fair the quality of the essays is high This will certainly be the book on substance dualism Michael Tye University of Texas at Austin Substance dualism has for some time been dismissed as an archaic and defeated position in philosophy of mind but in recent years the topic has experienced a resurgence of scholarly interest and has been restored to contemporary prominence by a growing minority of philosophers prepared to interrogate the core principles upon which past objections and misunderstandings rest As the first book of its kind to bring together a collection of contemporary writing from top proponents and critics in a pro contra format the Blackwell Companion to Substance Dualism captures this ongoing dialogue and sets the stage for rigorous and lively discourse around dualist and physicalist accounts of human persons in philosophy Chapters explore emergent Thomistic Cartesian and other forms of substance dualism broadly conceived in dialogue with leading varieties of physicalism including animalism non reductive physicalism and constitution theory Loose Menuge and Moreland pair essays from dualist advocates with astute criticism from physicalist opponents and vice versa highlighting points of contrast for readers in thematic sections while showcasing today s leading minds engaged in direct debate Taken together essays provide nuanced paths of introduction for students and capture the imagination of professional philosophers looking to expand their understanding of the subject Skillfully

curated and in touch with contemporary science as well as analytic theology the Blackwell Companion to Substance Dualism strikes a measured balanced between advocacy and criticism and is a first rate resource for researchers scholars and students of philosophy theology and neuroscience *Theological Anthropology: A Guide for the Perplexed* Marc Cortez,2010-01-21 What does it mean to be human and to be made in the image of God What does it mean to be a person What constitutes a human person What does it mean to affirm that humans are free beings And what is gender Marc Cortez guides the reader through the most challenging issues that face anyone attempting to deal with the subject of theological anthropology Consequently it addresses complexities surrounding such questions as Each chapter explains first both why the question under consideration is important for theological anthropology and why it is also a contentious issue within the field After this each chapter surveys and concisely explains the main options that have been generated for resolving that particular question Finally the author presents to the reader one way of working through the complexity These closing sections are presented as case studies in how to work through the problems and arrive at a conclusion than as definitive answers Nonetheless they offer a convincing way of answering the questions raised by each chapter **Personal Identity and Resurrection** Georg Gasser,2016-09-17 What happens to us when we die According to Christian faith we will rise again bodily from the dead This claim raises a series of philosophical and theological conundrums is it rational to hope for life after death in bodily form Will it truly be we who are raised again or will it be post mortem duplicates of us How can personal identity be secured What is God s role in resurrection and everlasting life In response to these conundrums this book presents the first ever joint work of leading philosophers and theologians on life after death This is an impressive demonstration of interdisciplinary cooperation between philosophy and theology Various models are offered which depict what resurrection into an incorruptible post mortem body might look like Therefore this book is an indispensable resource for anyone interested in the doctrine of bodily resurrection be they philosophers theologians scholars in religious studies or believers interested in examining their faith *Christian Physicalism?* , Joshua R. Farris,R. Keith Loftin,2017-12-26 On the heels of the advance since the twentieth century of wholly physicalist accounts of human persons the influence of materialist ontology is increasingly evident in Christian theologizing To date the contemporary literature has tended to focus on anthropological issues e g whether the traditional soul body distinction is viable with occasional articles treating physicalist accounts of such doctrines as the Incarnation and Resurrection of Jesus cropping up as well Interestingly the literature to date both for and against this influence is dominated by philosophers The present volume is a collection of philosophers and theologians who advance several novel criticisms of this growing trend toward physicalism in Christian theology The present collection definitively shows that Christian physicalism has some significant philosophical and theological problems No doubt all philosophical anthropologies have their challenges but the present volume shows that Christian physicalism is most likely not an adequate accounting for essential theological topics within Christian theism Christians then should consider
