Synergetics Explorations In The Geometry Of Thinking:

Synergetics 2 R. Buckminster Fuller, 1983 Synergetics 2 contains a ninety page index to both volumes They comprise a single work with the sequence of paragraphs numbered to dovetail in a single integrated narrative They should eventually be published as a single work eliminating the artificial division into two volumes resulting from the chronology of their composition E J Applewhite courtesy of the Estate of R Buckminster Fuller [Synergetics](#) R. Buckminster Fuller, 1982 Synergetics according to E J Applewhite was Fuller s name for the geometry he advanced based on the patterns of energy that he saw in nature For Fuller geometry was a laboratory science with the touch and feel of physical models not rules out of a textbook It gains its validity not from classic abstractions but from the results of individual physical experience Description by the Buckminster Fuller Institute courtesy of The Estate of Buckminster Fuller **Synergetics** Richard Buckminster Fuller, E. J. Applewhite, Arthur Lee Loeb, 1975 It is the writer s experience that new degrees of comprehension are always and only consequent to ever renewed review of the spontaneously rearranged inventory of significant factors This awareness of the processes leading to new degrees of comprehension spontaneously motivates the writer to describe over and over again what to the careless listener or reader might seem to be tiresome repetition but to the successful explorer is known to be essential mustering of operational strategies from which alone new thrusts of comprehension can be successfully accomplished *Topological (in) Hegel* Borislav G. Dimitrov, 2018-01-23 The aim of this book is to critically examine whether it is methodologically possible to combine mathematical rigor topology with a systematic dialectical methodology in Hegel and if so to provide as result of my interpretation the outline of Hegel s Analysis Situs also with the proposed models build on the topological manifold cobordism topological data analysis persistent homology simplicial complexes and graph theory to provide an indication of how the merger of Hegel s dialectical logic and topology may be instrumental to a systematic logician and of how a systematic dialectical logic perspective may help mathematical model builders [A More Perfect Union](#) Linda Sargent Wood, 2012-08-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell Silent Spring to challenge society s use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society s problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century s most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights

leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today
