commit to the process and truly change the culture a Lean Enterprise will truly remain elusive **A Public-Sector Journey to Lean** Kate McGovern, 2018-10-26 Most Lean practitioners learn about the three Ms muda waste mura unevenness or variability and muri overburden and beginners in Lean generally focus on the removal of muda The impact of muri is not as readily understood It is extremely significant however for those working in government Decisions on staffing levels and resource allocation are made by elected officials who are generally disconnected from daily operations Short sighted cost cutting makes it difficult to deliver quality services as efficiently as possible The mantra of do more with less creates ever increasing muri In contrast to robust Lean programs in privately owned companies efficiency initiatives are regularly cut from public sector budgets Antiquated systems remain in place with too few workers to operate the existing processes The debilitating impact of persistent muri brings burnout and turnover perpetuating a vicious cycle Despite the muri a dedicated cadre of public servants is hard at work using Lean techniques and principles to break down bureaucratic red tape and improve the quality of services at every level of government across the country While the author incorporated examples of Lean initiatives in other states to give readers an idea of all the terrific work that is occurring this book is really the story of one of those journeys Using the author's experience while working for the State of New Hampshire you'll learn about the steps along the way Each chapter tells a story of what they did what they learned and how the lessons can be applied Annotated outlines of White Yellow and Green Belt programs and the Lean for Leaders workshop as well as two hypothetical scenarios that were used as training exercises are included These approaches are not intended to be authoritative or prescriptive they are offered as insights and examples You'll read about the challenges and pitfalls and the creative countermeasures developed by a dauntless team of Lean practitioners The story is shared to inform and encourage others material based on the New Hampshire Bureau of Education and Training's Lean programs is included throughout the book
