And when Miles is forced to confront his past again, Reyes and Miles will have to put all their trust in each other if they want any chance at building a future together.

The Good Neighbor William Kowalski, 2009-05-28 When Francie and Colt Hart drive past an abandoned 150-year-old farmhouse in rural Pennsylvania, they both fall head over heels in love with it, but for entirely different reasons. Colt, an ambitious hard-charging stock trader, sees it as a potential showcase for his wealth. Francie, long dependent on antidepressants, hopes it will inspire her to resume the literary life she abandoned when she married Colt ten years before. Perhaps she thinks it will save their faltering marriage. But the more they learn about the house and especially the tragic history of its previous occupants, whose descendants are their new neighbors, the more it threatens to drive them apart. This P/S edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

Mates Jessica Lynch, 2019-06-20 Maddox is a wolf on the hunt. Paranormals exist. More than fifty years ago, the community of supernatural races—shifters, vampires, ghosts, witches, and more—revealed themselves to the humans. With the rise of technology, they couldn't stay hidden in the shadows like they had for centuries. And while rumors of their existence go back even further than that, the announcement sent shockwaves throughout the rest of the world. After the shock wore off, the humans reacted. Knowing that Paras had the strength, the humans struggled to keep the power. And what better way than to grab a Para by the balls? Ordinance 7304, the Bond Laws, a set of mandates hurriedly put in place, that Paras had to follow, especially when it came to their fated unions. The laws kept the peace when the penalty for breaking one was being thrown in a magic-free prison. They had to. Ordinance 7304, also known as the Claws Clause, keeps the Paras in line and gives the human population an illusion of safety. And why not? With the power of the entire government behind the laws, even an alpha wolf loses some of his strength. Because one of the biggies. When a shifter finds his fated mate, it doesn't matter what his nose or his body says. His instincts might scream mine, but that doesn't mean he can run off with his woman and claim her. To the humans, that's kidnapping, and it's a big no-no. Maddox Wolfe understood that until the day he stumbled upon Evangeline Lewis and knew in an instant that this was the woman he'd spent his whole life waiting for. And while his wolf says take her, he knows he can't woo his mate from the inside of the Cage. She's human, so he has to think like a human. Act like a human. Pretend he's a human. Whatever it takes to make her his mate. And since he is an alpha wolf shifter, there's gonna be a little stalking and hunting involved. It's okay. His Evangeline will eventually understand. *Mates* is a prequel novella that is set
