The Politics of Harmony Laurel L. Rose, 1992-01-31 Laurel Rose analyzes how traditional ruling elites in Swaziland as in other parts of Africa use harmony ideologies to downplay and resolve land disputes Such disputes could be used by foreign development agents or indigenous new elites as justification for implementing land tenure changes including a reduction of traditional elites power based upon land control Swazi commoners accept the cultural value and legitimacy of most harmony ideologies but they adopt various strategies when disputing about particular land rights in order to produce more favorable outcomes This book is unusual in its focus on political rather than economic dimensions of land tenure and disputes It searches for links between individual concerns with land use rights and national concerns with land policy It also examines gender and leadership issues associated with land showing how women and new elites threaten land interests of men and traditional leaders
