**Introduction to the Hebrew Bible, Third Edition - Prophecy** John J. Collins, 2019-04-15 John J Collins s Introduction to the Hebrew Bible is one of the most popular introductory textbooks in colleges and seminary classrooms Enriched by decades of classroom teaching it is aimed explicitly at motivated students regardless of their previous exposure to the Bible or faith commitments The third edition is presented in a new and engaging format with new maps and images An index has been added to the volume for the first time In order to enhance classroom use Collins s major text has now been divided into four volumes one for each major part of the Hebrew Bible This volume based on the new third edition focuses on prophecy in the Hebrew Bible Here Collins explores the major and minor prophets and the messages they delivered within each of their historical contexts The volume also contains the introduction to Collins s major text and is now available with even more student friendly features including charts maps photographs chapter summaries and bibliographies for further reading Collins presents the current state of historical archaeological and literary understandings of the biblical text and engages the student in questions of significance and interpretation for the contemporary world **The ^AKing and the Land** Stephen C. Russell, 2016-10-03 This book maps unexplored dimensions of royal power in the biblical world by examining archaeological and textual evidence for royal control of privately held lands religious buildings collectively governed towns and urban water systems In doing so the book contextualizes Israelite and Judahite politics within broader patterns of ancient Near Eastern spatial power Understanding Dan Mark Walter Bartusch, 2003-06-01 This book investigates the Dan Danite tradition in the Hebrew Bible to determine not only what the Bible tells us about Dan but also how far traditions about the territory city ancestor and tribe may have influenced each other Bartusch argues that the political and theological interests reflected in the relatively late work of the Deuteronomistic Historian have cast a shadow over some earlier traditions and that by combining social science models and newer literary criticism with the more traditional historical critical methodologies the original meaning of the traditions of Dan may be recovered and clarified The conclusion of such a study is that the Hebrew Bible as a whole does not entirely support the negative portrayal of Dan in its later traditions **The Prophetic Literature** David L. Petersen, 2002-04-02 Respected scholar David Petersen provides a systematic and comprehensive introduction to the prophetic literature Petersen takes into account the major advances in current research as he examines both the literature of the latter prophets Isaiah Malachi as well as the Hebrew texts that describe the work and words of Israel s earlier prophets e g Elijah and Elisha in 1 2 Kings **The Fulfilment of Doom?** Elizabeth Boase, 2006-06-15 It has long been noted that the book of Lamentations shares at least in part a theological outlook with the

prophetic literature that the destruction of Jerusalem was the result of Yahweh's decisive action against the sins of the nation. Too often however this relationship has simply been presupposed or assumed to be a relationship of shared perspective. To date there has been no systematic exploration of how it is that Lamentations accepts and/or modifies the theological outlook of the prophetic literature. In addition when the theology of the prophets has been discussed in relation to Lamentations there has been a tendency to group all the prophetic books together as if they existed as a homogeneous whole and shared amongst themselves a singular outlook. This tendency to simplify the theological complexity of the prophetic literature coincides with a similar tendency to reduce the theology of Lamentations to simple monotheistic assertions. Drawing on the literary insights of Mikhail Bakhtin this study aims to explore in detail the nature of the relationship between Lamentations and the pre-exilic/exilic prophetic literature. Drawing on the notions of dialogism, polyphony and double voicing the study argues that Lamentations enters into a dialogic relationship with prophetic literature, a relationship that both affirms and subverts that literature. Central to the acknowledgement of the dialogic interaction between Lamentations and the prophetic literature is the recognition of Lamentations as a multivalent polyphonic text in which unmerged viewpoints exist in a tension-filled relationship.

**The Composition and Redaction of the Book of Amos** Tchavdar S. Hadjiev, 2009. This Oxford dissertation offers a fresh redactional analysis of the Book of Amos. It starts with a critical survey of existing approaches and an examination of the methodological issues involved and proceeds with a detailed exegetical analysis of the prophetic text which forms the basis for the redactional conclusions. It steers a middle course between extreme conservative treatments which trace all the material back to the prophet Amos and more radical sceptical approaches which attribute most of the prophetic oracles to the work of later redactors. The composition of the book began with two collections: the Polemical scroll written not long after the end of Amos' ministry and the Repentance scroll composed shortly before 722 BC. The Repentance scroll was reworked in Judah towards the end of the 8th century BC and the two scrolls were combined to form a single work sometime during the 7th century BC. The Book underwent only one redaction during the exilic period which sought to actualise its message in a new historical context. The study pays special attention to the literary structure, aim and probable historical circumstances of the various collections which gradually evolved into the present Book of Amos and seeks to show how the prophetic message lived on and spoke to the various communities which preserved and transmitted it.

**BMH as Body Language** W. Boyd Barrick, 2008-06-01. A fresh systematic and comprehensive examination of the Hebrew word BMH in biblical and post-biblical passages where it supposedly carries its primary topographical sense.

The Book of Amos as Composed and Read in Antiquity Aaron W. Park, 2001. A diachronic analysis attempts to uncover earlier literary redactional layers based on a set of controlled criteria characterized by literary uniqueness. The second part is a study on *Nachleben* (living tradition) and employs Comparative Midrash in *sensu lato*. This book draws the reader's attention to many differing voices documented among the various believing communities in antiquity.
