vailing by the evil counsels of those by whom he was surrounded He chose his advisers among men whose ambition and turbulence had ravaged the country but whose lawless deeds he attributed only to zeal for his cause Accustomed from his earliest youth to regard them as his friends while their sole thought was to captivate his favour and make it a stepping stone for their ambition he appointed them to the exclusion of Don Manuel whose influence though insufficient to check every abuse had hitherto been a beneficial restraint About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Count Lucanor](#) Don Juan Manuel, Infante of Castile Juan Manuel, 1989-01-01 [Count Lucanor; or, the Fifty Pleasant Stories of Patronio, Written by the Prince Don Juan Manuel](#), 1899

**The Determinants of Diachronic Stability** Anne Breitbarth, Miriam Bouzouita, Lieven Danckaert, Melissa Farasyn, 2019-03-20 While much of the literature has focused on explaining diachronic variation and change the fact that sometimes change does not seem to happen has received much less attention The current volume unites ten contributions that look for the determinants of diachronic stability mainly in the areas of morphology and morpho syntax The relevant question is approached from different angles both empirical and theoretical Empirically the contributions deal with the absence of change where one may expect it to uncover underlying stability where traditionally diachronic change was postulated and inversely superficial stability that disguises underlying change Determining factors ranging from internal causes to language contact are explored Theoretically the questions of whether stable variation is possible and how it can be modeled are addressed The volume will be of interest to linguists working on the causes of language change and to scholars working on the history of Germanic Romance and Sinitic languages [Count Lucanor: or, the fifty pleasant stories of Patronio, written by the Prince Don Juan Manuel, A.D. 1335-1347.
