H.,1909    **Genesis Revealed** Peter Waller, The lines have been drawn On one side are young earth creationists who assert that God created the universe in six days and based on calculations derived from the Bible that the earth is six thousand years old On the other side are secular scientists who claim the universe has existed for over thirteen billion years the earth for 4.5 billion Scientists claim that no miracles were necessary to form the universe and that everything is explained by natural causes However young earth creationists point to verses at the beginning of the Bible and the beginning of the book of John that clearly claim that God created the universe In the beginning God created the heavens and the earth The earth was formless and void and darkness was over the surface of the deep and the Spirit of God was moving over the surface of the waters Genesis 1:1-2 In the beginning was the Word and the Word was with God and the Word was God He was in the beginning with God All things were made by him and without him was not anything made that was made John 1:1-3 But what if there is no contradiction between scientific data and the Bible Arnold Guyot was a nineteenth century geologist and geographer at Princeton University In addition to his numerous scientific accomplishments he developed the day age interpretation of Genesis 1 in which the days of creation represent geologic ages When we view the Bible through this lens we find that modern science has not only failed to refute the miracles of Genesis but has in fact provided abundant evidence for their veracity Genesis Revealed A Scientific Examination of the Creation Story takes readers down the twin paths of science and theology to show that they lead us to the same destination Citing a multitude of discoveries in astronomy and
