The Ninth Wave A. Wales, 2006-11-01 **The Nine Waves of Creation** Carl Johan Calleman, 2016-11-15 A guide to aligning your life with the frequencies of the Nine Waves of Creation Explains the quantum physics behind the Waves of the Mayan Calendar system and how their holograms shape the human mind Shows how throughout history each revolution in human consciousness has been driven by the activation of one of the Nine Waves of Creation Reveals how we can consciously work to deactivate the negative patterns of the Sixth Wave and manifest the unity consciousness of the Ninth Wave In the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has not been able to explain These changes correspond with the activation of new Waves of Creation emanating from the center of the universe that influence human thinking From the Big Bang to the present these Waves guide the evolution of the universe and through their holographic resonance with the human mind profoundly shape revolutions in religion technology economy and social consciousness Presenting a quantum holographic perspective on world history and human consciousness Carl Calleman explains the quantum physics behind the Waves of the Mayan Calendar system and how these Waves allow us to understand the shifting eras on Earth as well as the possibilities of the future He describes how prior to the activation of the 6th Wave in 3115 BCE our social systems were based on a unified cosmic order but the hologram of this Wave shifted society to an all-consuming focus on Good and Evil leading to the rise of patriarchal religious structures slavery and warfare He explores how later Waves and their new holograms helped humanity survive the negative effects of the 6th Wave such as the Industrial Revolution of the 7th Wave and the Digital Revolution of the 8th Wave In 2011 the 9th Wave was activated bringing with it an accelerated push for a more egalitarian world a rising awareness of unity consciousness and access to the full power of all Nine Waves of Creation Calleman explains how our individual resonance with each Wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher Waves

Revealing how we can become quantum activists in a holographic world by aligning with the 9th Wave the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts Over the Ninth Wave George Cameron,

Bassett,1885 The Ninth Wave Kate Bush,Robert Jopling,2017-06-25 Widely regarded as Kate Bush s finest work the concept The Ninth Wave was always something that would adapt well to literature or film and so I turned each song on the suite into a collection of short stories that both stays true to Kate s original work whilst diverting for art s sake The concept tells of a girl Molly adrift in the Atlantic at night As death closes in the protagonist undergoes a terrifying near death experience causing surreal out of body experiences and dream states that illustrate both the internal and external struggles her current predicament in the Atlantic as well as what is happening in the character s head The concept highlights the themes of survival and there is a constant battle between the pull of death and the push for life the conscious and unconscious mind and the fine line between fantasy and reality It is a surreal visual and often terrifying concept The ninth wave is a piece of music that s adored by many but a piece of music in which very few are aware of all its beautiful complexities which only become obvious after many listens This literary adaptation sheds light on the concept whilst changing parts and extending themes so it works as an adaptation I m sure any fans of Kate would enjoy this The book also contains a commentary explaining the concept and my ideas behind the writing *Wild Things* Jack Halberstam,2020-10-02

In *Wild Things* Jack Halberstam offers an alternative history of sexuality by tracing the ways in which wildness has been associated with queerness and queer bodies throughout the twentieth century Halberstam theorizes the wild as an unbounded and unpredictable space that offers sources of opposition to modernity s orderly impulses Wildness illuminates the normative taxonomies of sexuality against which radical queer practice and politics operate Throughout Halberstam engages with a wide variety of texts practices and cultural imaginaries from zombies falconry and M NourbeSe Philip s *Zong* to Maurice Sendak s *Where the Wild Things Are* and the career of Irish anticolonial revolutionary Roger Casement to demonstrate how wildness provides the means to know and to be in ways that transgress Euro American notions of the modern liberal subject With *Wild Things* Halberstam opens new possibilities for queer theory and for wild thinking more broadly **The Tides of Avarice** John Dahlgren,2011 Nothing much happens in the village of Foxglove or so Sea
