The Archaic takes as its major reference points C G Jung s classic essay Archaic Man 1930 and Ernesto Grassi s paper on Archaic Theories of History 1990 Moving beyond the confines of a Jungian framework to include other methodological approaches this book explores the concept of the archaic Defined as meaning old fashioned primitive antiquated the archaic is in fact much more than something very very old it is timeless inasmuch as it is before time itself Arch Urgrund Ungrund primordial darkness eternal nothing are names for something essentially nameless yet whose presence we nevertheless intuit This book focuses on the reception of myth in the tradition of German Idealism or Romanticism Creuzer Schelling Nietzsche which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth century thought Ludwig Klages Martin Heidegger The Archaic also includes studies of the Germanic dimension of the archaic Charles Bambach Alan Cardew a discussion of the mytho phenomenological approach to the archaic Robert Josef Kozljani a series of articles on Jung s understanding of the archaic Paul Bishop Susan Rowland Robert Segal This book will be of interest to psychoanalysts anthropologists and phenomenologists as well as students of psychology cultural studies religious studies and philosophy as it seeks to rehabilitate a concept of demonstrable

and urgent relevance for our time      **The Anthropology of Magic** Susan Greenwood,2009-11-01 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic      The Participant Christopher M. Kelty,2020-01-21 Participation is everywhere today It has been formalized measured standardized scaled up network enabled and sent around the world Platforms algorithms and software offer to make participation easier but new technologies have had the opposite effect We find ourselves suspicious of how participation extracts our data or monetizes our emotions and the more procedural participation becomes the more it seems to recede from our grasp In this book Christopher M Kelty traces four stories of participation across the twentieth century showing how they are part of a much longer term problem in relation to the individual and collective experience of representative democracy Kelty argues that in the last century or so the power of participation has dwindled over time it has been formatted in ways that cramp and dwarf it even as the drive to participate has spread to nearly every kind of human endeavor all around the world The Participant is a historical ethnography of the concept of participation investigating how the concept has evolved into the form it takes today It is a book that asks Why do we participate And sometimes Why do we refuse      Understanding Religion Benson Saler,2009-08-17 This volume consists of 12 essays published by the author between the years 1997 2007 a thirteenth paper read at a conference in 2006 and a long introduction prepared specifically for the collection All of the essays deal with epistemological issues attendant on conceptualizing and defining religion understanding what is likely to be involved in studying and discussing beliefs and attempting to explain religion and religions by drawing on the contemporary cognitive and evolutionary sciences The problem of how best to understand and represent the cultural sensitivities of others is addressed by considering the works of three predecessors Edward Burnett Tylor Lucien Levy Bruhl and A Irving Hallowell      *Elgar Encyclopedia of Political Anthropology* Arpad Szakolczai,Paul O'Connor,2025-09-10 This Encyclopedia explores the anthropological underpinnings of politics Featuring biographical entries that reconstruct the life works of key theorists from across the globe alongside topical entries on a range of issues in political anthropology it poses the question what does it mean to be human in contemporary times      *Twentieth-century Culture* Alan Bullock,Robert Bertram Woodings,John Cumming,1983      **Journal of the Anthropological Society of Oxford**
