The Novel

D. A. Miller

The Novel:

The Novel and The Police D. A. Miller, 1988 With the appearance of D A Miller's remarkable book the Victorian novel has its most dazzling critic in years. Miller's subject is not so much the police in fiction as fiction and policing narrative as a conservative function of the polis. Tracking diverse strategies of surveillance and incarceration into the confines of the fictional institution itself, Miller investigates Victorian novels as the often unconscious agent of a disciplinary culture. He thus reads fiction reading us keeping a public in its private place. His mastery of an intricate, layered and sinuous argument is stunning, the writing no less than superb. For all the book's overarching debt to Foucault, D A Miller does the police in a voice all his own. Garrett Stewart, author of *Death Sentences: Styles of Dying in British Fiction*

The Rise of the Novel, Updated Edition

Ian Watt, 2001-06 A classic description of the interworkings of social conditions changing attitudes and literary practices during the period when the novel emerged as the dominant literary form of the individualist era

Genre and Extravagance in the Novel

Jed Rasula, 2021 Examines the form of the novel capacious defined and across its history exploring the interplay of conformity and experimentation in classic and outlier examples of the genre with a focus on Joseph Conrad, Henry James and Virginia Woolf

The Novel Today Malcolm Bradbury, 1977 Britain's most important contemporary authors reflect intelligently and imaginatively on the nature and development of the modern novel

The Moor and the Novel

Mary B. Quinn, 2013-11-21 This book reveals fundamental connections between nationalist violence, religious identity and the origins of the novel in the early modern period. Through fresh interpretations of music, literature and history, it argues that the expulsion of the Muslim population created a historic and artistic aperture that was addressed in new literary forms

Periodicals, Fiction and the Novel, 1700-1760 Jennifer Buckley, 2025-05-31 The essay periodical and the novel both emerged as new literary genres in the eighteenth century. Yet there has been no full length study of the formative role each genre played in the development of the other. This book uses the lens of periodical studies to reassess what we know about the history of prose fiction, examining how periodicals shaped fictionality and how they were influenced by it in return. It moves the dial on studies of the English novel, arguing that the vibrant interchange between these genres revolutionised the printed world. Over five chapters that contextualise key authors within London's cutthroat print marketplace, the book studies the idea of print ecologies to explain the mutual dependence of the periodical and prose fiction, disrupting the often held assumption that the novel emerges from this period *sui generis*

Critical Theory and the Novel David Bruce Suchoff, 1994 Using the methods of Frankfurt School theorists Walter Benjamin and Theodor Adorno, David Suchoff offers new readings of Dickens, Melville and Kafka that underscore the political and social critiques inherent in their novels. Suchoff's aim is to redeem the critical power of mass culture in the modern novel and he argues that ideological battles fought in American literary criticism during the Cold War decades have limited our current interpretations of mass culture's critical force in political fiction. Suchoff demonstrates how the works of these nineteenth and early twentieth century novelists were

taken up into the Cold War literary canon and made to fit the arguments of American liberal critics for subversive fiction and of New Historicist critics for a contained modern novel Applying Benjamin's redemptive criticism and Adorno's dialectical method Suchoff's readings of Dickens Melville and Kafka show how the political problems posed by mass culture and audience for each writer became part of the dialectically critical grain of their most important social novels He examines Dickens's struggle with Victorian taste and the relation of his work to advertising and other nonliterary forms Melville's confrontations with popular ideologies of American expansion and race and Kafka's concern with the popular Yiddish theater and Jewish political movements Throughout Suchoff reveals the continuing importance of commodity culture in the novel tradition and the concurrent development of cultural criticism Critical Theory and the Novel provides a useful introduction to Benjamin and Adorno and their uses in practical criticism It is also an illuminating study of the historical origins of literary theory and cultural criticism and a contribution to the expanding field of Cultural Studies
