The Occultism of William Kingsland William Kingsland,2014-03-29 This Is A New Release Of The Original 1922 Edition

Occult Roots of Religious Studies Yves Mühlematter,Helmut Zander,2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas The Reference Catalogue of Current Literature ,1894

**The Riddle of Life** Annie Besant,1913 The Bookseller ,1892 *The Sacred Life of Modernist Literature* Allan Kilner-Johnson,2022-06-16 Probing the relationship between modernist literary experimentation and several key strands of occult practice which emerged in Europe from roughly 1894 to 1944 this book sets the work of leading modernist writers alongside lesser known female writers and writers in languages other than English to more fully portray the aesthetic and philosophical connections between modernism and the occult Although the early decades of the twentieth century the era of cocktails motorcars bobbed hair and war are often described as a period of newness and innovation many writers of the time found inspiration and visionary brilliance by turning to the mysterious occult past This book s principle intervention is to reimagine the contours and boundaries of literary modernism by welcoming into the conversation a number of significant female writers and writers in languages other than English who are often still relegated to the fringes of modernist studies Well remembered poets and novelists such as Ezra Pound W B Yeats and Aleister Crowley were tied to occult beliefs and this book sets these leading figures alongside less well remembered but equally splendid modernists including Paul Brunton Mary Butts Alexandra David Neel Florence Farr Dion Fortune Hermann Hesse and Rudolf Steiner From the little magazines where occultism and Fabianism were comfortable companions to consulting rooms of psychoanalysts where archetypes were revealed to be both mystical and mundane to the forbidden mountain trails that led to formidable spiritual teachers the conditions of modernism were invariably those conditions which inspired a return to the occult traditions that many thinkers believed had long evaporated Indeed in many ways these traditions were the making of the modern world By uncovering hidden hopes and anxieties that faced a newly modern Western Europe this book demonstrates how literary modernists

understood occultism as a universal form of cultural expression which has inspired creative exuberance since the dawn of civilisation

Literary Modernism and the Occult Tradition Leon Surette, Demetres P. Tryphonopoulos, 1996

**Criticism** This collection of essays is posited on the conviction that mythical ecstatic and revelatory topoi in the modernist works of Yeats Eliot Williams H D Pound Joyce et al are motivated not by a sceptical and positivistic dismissal of the religious past as implausibly maintained by the New Criticism but rather these features arise out of a radical and reformist attempt to revive ancient pagan religious sensibilities In essence the modern occult amounts to a neo pagan piety that is polytheistic fleshly erotic and ecstatic opposed to a Christian or Jewish piety that is monotheistic otherworldly ascetic and revealed In short the occult manifests itself in modernist literature in what Nietzsche would have called a Dionysian guise confused because of its rejection of Judeo Christian sensibilities with a sceptical secularism Among the dozen contributors here are Peter Liebrechts John Coggrave Barry Ahearn Leonora Woodman M Anthony Trembly and Archie Henderson
