Sweet Talk Nicholas Whittaker,1999-05     **Sweets and Candy** Laura Mason,2018-04-15 With eye popping colors and shapes intense flavors and curious textures sweets and candy are beloved by people of all ages worldwide They provide minor treats lessons in economics for children and colorful giveaways to mark festivities They can be admired for beauty and novelty make ideal gifts and can even be used to woo But these seemingly inconsequential indulgences are freighted with centuries of changing cultural attitudes social and economic history emotional attachments and divergent views on the salubriousness of sugar How did confectionary become so popular Why do we value concentrated sweetness in such varied gooey forms And in the face of ongoing health debates why persist in eating sweets From marzipan pigs and nutty nougat to bubblegum and bonbons Sweets and Candy looks beneath the glamour and sparkle to explore the sticky history of confectionary Methods for making sweets can be traced back to the importance of sugar in Arabic medicine and the probable origin of this practice in ancient India a place where sweetness is still important for both humans and gods Gorging on gobstoppers from these early candy antecedents to modern day delectables Laura Mason describes the bewildering and fascinating ways in which different cultures have made consumed valued and adored sweets throughout history Featuring a selection of mouthwatering illustrations and scrumptious recipes to try at home this global candy trail will delight sweet toothed foodies and history buffs everywhere

*Diet for a Large Planet* Chris Otter,2023-06-05 In this magisterial study Chris Otter traces Britain s transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet s resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain s nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets international trade networks and enormous agro food systems that would have planetary effects on famine war the world economy and the wider earth system Not only did this phase in Britain s history make the

consumption of meat white bread sugar and butter a coveted diet linked to development luxury and power it also opened up a new phase in economic history one whose dramatic effects endure to this day whether in terms of health problems eating disorders or the seemingly endless world food crisis     The Table Comes First Adam Gopnik,2011-10-25 Never before have we cared so much about food It preoccupies our popular culture our fantasies and even our moralizing You still eat meat With our top chefs as deities and finest restaurants as places of pilgrimage we have made food the stuff of secular seeking and transcendence finding heaven in a mouthful But have we come any closer to discovering the true meaning of food in our lives With inimitable charm and learning Adam Gopnik takes us on a beguiling journey in search of that meaning as he charts America s recent and rapid evolution from commendably aware eaters to manic compulsive gastronomes It is a journey that begins in eighteenth century France the birthplace of our modern tastes and by no coincidence of the restaurant and carries us to the kitchens of the White House the molecular meccas of Barcelona and beyond To understand why so many of us apparently live to eat Gopnik delves into the most burning questions of our time including Should a Manhattanite bother to find chicken killed in the Bronx Is a great vintage really any better than a good bottle of wine And Why does dessert matter so much Throughout he reminds us of a time honored truth often lost amid our newfound gastronomic pieties and certitudes What goes on the table has never mattered as much to our lives as what goes on around the table the scene of families friends lovers coming together or breaking apart conversation across the simplest or grandest board This ultimately is who we are Following in the footsteps of Jean Anthelme Brillat Savarin Adam Gopnik gently satirizes the entire human comedy of the comestible as he surveys the wide world of taste that we have lately made our home The Table Comes First is the delightful beginning of a new conversation about the way we eat now     **Kaapse bibliotekaris** ,2000 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957     **PPC** ,1999     **Sweets** Tim Richardson,2002 We are all secretly or openly obsessed with sweet things From the very earliest human societies there is evidence that Neolithic people made sweets to modern day there is nothing more likely to get your juices flowing than a sweet     Current Contents.
