The Perfect Sword Paul Gething, Edoardo Albert, 2022-11-03 The story of the Bamburgh Sword one of the finest swords ever forged In 2000 archaeologist Paul Gething rediscovered a sword An unprepossessing length of rusty metal it had been left in a suitcase for thirty years But Paul had a suspicion that the sword had more to tell than appeared so he sent it for specialist tests When the results came back he realised that what he had in his possession was possibly the finest and certainly the most complex sword ever made which had been forged in seventh century Northumberland by an anonymous swordsmith This is the story of the Bamburgh Sword of how and why it was made who made it and what it meant to the warriors and kings who wielded it over three centuries It is also the remarkable story of the archaeologists and swordsmiths who found studied and attempted to recreate the weapon using only the materials and technologies available to the original smith
