**Dan Bruce**

## **Synchronized Chronology:**

Synchronized Chronology Roger Henry, 2003 Imagine how distorted our understanding of ancient history would be if the chronological framework around which it was built had several extra centuries added What if the backbone of Egyptian dynasties contained duplicates The Synchronized Chronology resolves the structural problems of Egyptian chronology and then outlines the correct history of the Middle East and Mediterranean time of Abraham and his wandering into the Empire of Alexander the Great Recognizing some overlapping of dates and names in Manetho's List of Kings frees history to place pharaohs and dynasties where archaeology supports their existence This resolves a myriad of discrepancies and unlikely assumptions that historians have been forced to swallow and neatly opens the way to synchronizing Egyptian dynasties with Biblical chronology

**Universal History and the Making of the Global** Hall Bjørnstad, Helge Jordheim, Anne Régent-Susini, 2018-07-03 By examining the history of universal history from the late Middle Ages until the early nineteenth century we trace the making of the global Early modern universal history can be seen as a response to the epistemological crisis provoked by new knowledge and experience Traditional narratives were no longer sufficient to gain an understanding of events Inspired by recent developments in theory of history the volume argues that the relevance of universal history resides in the laboratory of intense diverse and mainly unsuccessful attempts at thinking history and universals together They all shared the common aim of integrating all time and space assemble the world and keep it together

**The Oxford History of Historical Writing** José Rabasa, Masayuki Sato, Edoardo Tortarolo, Daniel Woolf, 2012-03-29 Volume III of The Oxford History of Historical Writing contains essays by leading scholars on the writing of history globally during the early modern era from 1400 to 1800 The volume proceeds in geographic order from east to west beginning in Asia and ending in the Americas It aims at once to provide a selective but authoritative survey of the field and where opportunity allows to provoke cross cultural comparisons This is the third of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world

**The painful agony of the Evolutionist Myth** Marcel Toussaint, 2016-03-31 The author of this e book is an engineer and physicist who specialized in space technologies After a few years at the European Space Agency he occupied for some 30 years the position of director of studies in a Paris based industrial think tank He is the father of ten children After his retirement he endeavored to obtain a degree in theology in an academic institution frequented by numerous seminarians and members of religious orders He was appalled by what he discovered there It has been said that in the Bible everything can be put in doubt with the exception of the footnotes This is exactly what he found out Where he had expected to receive an in depth intellectual introduction to theological matters he found himself subjected to a sort of brain washing aiming at replacing all what he had learned in his childhood and in a lifetime as a practicing catholic by the most futile modern fantasies and in particular by the imaginations of the theory of evolution Evolution is for our time what Arianism was in the first centuries the major heresy It is even more than an heresy

an anti theology which attributes to materialistic processes what used to be and should always be attributed to God s power and love Nevertheless a large crowd of theologians exegetes professors and bishops adhere to this theory with an enthusiasm that they justify by claiming that science has proven its adequation to reality without any doubt Evolution is more than a theory they claim this is the consensus of the scientists and it would be a sin against truth not to admit it Refusing to accept that the author decided to inquire about the scientific foundations of evolution He quickly discovered that not only were such foundations most unconvincing but that several of the most vocal defenders of the theory candidly admitted the patent absurdity of some of its constructs Richard Lewontin and that their aim was purely ideological or rather anti religious The results of his work were published in two books *La terrible Responsabilit de l ex g se moderne dans la crise de l glise* Edilivre Paris 2015 and *Modern Exegesis the Theory of Evolution and the Decline of Catholicism in the West* 2016 Available on Amazon The present e book summarizes the scientific arguments opposing evolution with a special focus on the time line of the beginnings of mankind

**Joshua's Long Day and the Dial of Ahaz** Charles Adiel L. Totten, 1895

**Synchronized Chronology** Dan Bruce, 2013-06-01 This book utilizes a new harmonized chronology for the reigns of the thirty eight kings and one queen who ruled during the period of the divided monarchies of Israel and Judah The new Hebrew kings chronology was made possible by recent biblical research that applied information contained in the Book of Daniel to identify the date for the beginning of the divided kingdoms period as 961 BCE not the 931 BCE date derived from the traditional Assyrian chronology used throughout modern academia The new Hebrew chronology based on using the 961 BCE starting date for the Hebrew kingdoms period allows construction of a more accurate reference timeline for the reigns of the kings of Israel and Judah than possible using traditional Assyrian anchored chronology By employing the new and more accurate Hebrew kings chronology along with the latest chronological data developed by modern scholars for the reigns of non Hebrew kings in the nations surrounding Israel during the biblical time period this book compares the regnal chronologies of Egypt Assyria Tyre Babylon and Urartu with the new Hebrew regnal timeline The new Hebrew chronology and traditional Egyptian chronology yield agreement when compared with one another However comparison of the resulting Hebrew Egyptian synchronized timeline with traditional Assyrian chronology reveals that there are thirty eponyms and thus thirty years missing from the Assyrian timeline as derived from the Eponym List and Chronicles and it identifies where those missing years can be found between the end of the reign of Shalmaneser III and the currently accepted start of the reign of Tiglath pileser III In so doing this book shows that the biblical text is the most accurate and trustworthy ancient source text available for doing chronological research and historical studies and demonstrates that the biblical timeline can be used to calibrate other chronologies in the ancient Near East updated September 15 2013 Note The chronological interpretations in this book are the result of original Bible research They are not restatements of interpretations that you will have already read in popular Bible commentaries The interpretations match both the biblical text and recorded history exactly Also it should be noted that

the interpretations are NOT based on derivative of or associated with the work of any of the following groups or persons who have been active in the field of sacred chronology The Watchtower Society The Seventh day Adventist Church The LDS Church The Institute for Creation Research and similar creationist groups Donovan Courville Rolf Furuli David Rohl Peter James Immanuel Velikovsky and similar
