*The Quality of Life: Systems Approaches* G.E.

Lasker, 2014-05-20 *Applied Systems and Cybernetics* covers the proceedings of the International Congress on Applied Systems Research and Cybernetics. The book presents several studies that cover the application of systems research and cybernetics in improving the quality of life. Majority of the materials in the text tackle various aspects of quality of life in relation to systems and cybernetics such as living space, future prospects, work, education, politics, law, ethics and values, culture and ethnicity and social systems. The selection also presents articles that cover the elemental properties of quality of life such as the concept, views, indicators and dimension. The book will be of great interest to any scientists regardless of disciplines since it covers the main purpose of science: the improvement of quality of life.

*First Complex Systems Digital Campus World E-Conference 2015* Paul Bourguine, Pierre Collet, Pierre Parrend, 2016-12-24. This book contains the proceedings as well as invited papers for the first annual conference of the UNESCO Unitwin Complex System Digital Campus CSDC which is an international initiative gathering 120 Universities on four continents and structured in ten E Departments. *First Complex Systems Digital Campus World E Conference 2015* features chapters from the latest research results on theoretical questions of complex systems and their experimental domains. The content contained bridges the gap between the individual and the collective within complex systems science and new integrative sciences on topics such as genes to organisms to ecosystems, atoms to materials to products and digital media to the Internet. The conference breaks new ground through a dedicated video conferencing system, a concept at the heart of the international UNESCO UniTwin embracing scientists from low income and distant countries. This book promotes an integrated system of research, education and training. It also aims at contributing to global development by taking into account its social, economic and cultural dimensions. *First Complex Systems Digital Campus World E Conference 2015* will appeal to students and researchers working in the fields of complex systems, statistical physics, computational intelligence and biological physics.
