The Great Archaeologists:

The Great Archaeologists Brian Fagan, 2014-09-01 This is a compelling journey through the lives of those intrepid excavators and decipherers who revealed buried cities, lost civilizations and forgotten scripts to the modern world. 200 years of archaeological research, excavation and thought are told entertainingly and knowledgeably by some of the world's greatest living archaeologists through the life stories of seventy of the greatest pioneers, setting little-known names beside the giants in the field. This fascinating book is full of intriguing anecdotes, personal accounts and revealing insights. Editor Brian Fagan is Emeritus Professor of Anthropology at the University of California Santa Barbara.

The Great Archaeologists Edward Bacon, 1976 Encyclopedia of Archaeology Tim Murray, 1999 **Encyclopedia of Archaeology** Tim Murray, 1999-10-26 Encyclopedia of Archaeology The Great Archaeologists features 58 remarkable biographies written by some of the world's best-known archaeologists. These essays are arranged chronologically and thus constitute a history of archaeology from its beginnings in the Renaissance to the present day. Especially exciting is the coverage of figures little-known to readers in the West. Russian, Chinese and Mexican archaeologists receive their due. Each biography begins with a brief summary of the subject's importance, then goes on to discuss the life and contributions of the biographee, with a focus on his or her role in the development of archaeology as a discipline. Controversy, take for example the notorious Schliemann excavator of Troy, is not swept under the rug. Each essay concludes with a bibliography of primary sources for people who want to read about the archaeologists' discoveries in their own words and secondary sources to see what critics and admirers had to say.

The Great Archaeologists Edward Bacon, 1976 Organized into six thematic sections, this book gives short, vivid biographies and fresh assessments of the achievements of 70 of the world's greatest practitioners, written by a 40-strong team of contributors themselves all eminent archaeologists and authors. Brian Fagan has assembled a team of some of the world's greatest living archaeologists to write knowledgeably and entertainingly about their distinguished predecessors in this handsome volume full of fascinating anecdotes, personal accounts and unexpected insights. All these archaeologists, very different individuals and often in deep disagreement with one another, have established the subject as a scientific discipline and vastly broadened and deepened our knowledge of the human past. Authoritative and entertaining, this is a book for anyone fascinated by the human past and its discovery.

Unearthing the Past Douglas Palmer, 2005 Filled with more than a hundred full-color photographs and artwork, this book takes readers to the major archaeological sites of different places, times and civilizations in history, revealing the remarkable stories behind the fascinating expeditions, the discoveries and the people who uncovered them.

The Great Archaeologists Paul Bahn, 2009-07-16 The book focuses on the forty-seven great men and women who have been responsible for the most important discoveries in our history. It is presented in three accessible sections: Founders of Archaeology, Pioneers of Archaeology and Modern Archaeologists.
