Romancing the Cathedral Elizabeth Emery, 2001-09-20 Through an analysis of political, art historical and literary discourse this book considers French fascination with the Gothic cathedral. Milan Cathedral. The Gothic Cathedral of Italy Lea Drey, 2025-09-04 Seminar paper from the year 2024 in the subject Art Science of Art Art History grade 1 3 University of Bonn Kunsthistorisches Institut language English abstract Milan Cathedral is an extraordinary example of a Gothic cathedral that is difficult to compare with other buildings of this style. Gothic architecture was a style that did not catch on in Italy. Despite its strong spread from France to Spain, England and Germany, it cannot be found in Italy. Under these conditions the question arises as to why during the late Gothic period a Gothic cathedral was built in Milan and why there was no Gothic architecture before. This thesis aims to answer this question. The Gothic Cathedral Otto Georg Simson, 1956 **Universe of Stone** Philip Ball, 2009-03-17 A lively biography of Chartres Cathedral. Ball's account of its construction reveals fascinating details. The New Yorker Chartres Cathedral south of Paris is revered as one of the most beautiful and profound works of art in the Western canon. But what did it mean to those who constructed it in the twelfth and thirteenth centuries and why was it built at such immense height and with such glorious play of light in the soaring manner we now call Gothic? In this work Aventis Prize winner and National Book Critics Circle Award finalist Philip Ball makes sense of the visual and emotional power of Chartres and brilliantly explores how its construction and the creation of other Gothic cathedrals represented a profound and dramatic shift in the way medieval thinkers perceived their relationship with their world. Beautifully illustrated and filled with astonishing insight, *Universe of Stone* embeds the magnificent cathedral in the culture of the twelfth century: its schools of philosophy and science, its trades and technologies, its politics and religious debates, enabling us to view this ancient architectural marvel with fresh eyes. A terrific book, a lucid, thoughtful tour de force. The Christian Science Monitor Engrossing a resplendent account of the mysteries of Chartres Cathedral. Sunday Times There is no better introduction to the subject. The Wall Street Journal Artistic Integration in Gothic Buildings Virginia Chieffo Raguin, Kathryn Brush, Peter Draper, 1995-01-01 In this collaborative work, seventeen international scholars use contemporary methodologies to address the ways in which we understand Gothic church buildings today. *Artistic Integration in Gothic Buildings* discusses major monuments that have traditionally stood at the core of medieval art historical studies: the cathedrals of Durham, Wells, Chartres, Reims, Poitiers, Strasbourg and Naumburg; the abbey of Saint Denis and the Sainte Chapelle of Paris. The contributors approach the subject from different specialties and methodologies within the field of art history as well as from

the disciplines of history liturgical studies and theology Willibald Sauerlnder's overview acknowledges that since the early nineteenth century scholars have been confronted with monuments that no longer perform their original functions. The moment of the creation of these great cages of stone filled with images in metal paint glass stone and textiles has passed as surely as Villon's *snows* of yesteryear. Artistic intentions shifted continuously over the centuries as these great buildings were adapted to new situations historical cultural and religious. Once the settings for complex and diversified rituals of religious social and political dimensions the buildings today stand in a completely different time frame and are experienced by a different audience. This volume addresses the hermeneutics of the development of scholarship concerning the Gothic church reviewing the variable but largely exclusive agendas from the early nineteenth century to the present including those of Viollet le Duc Lefvre Pontalis M le Sedlmayr Von Simson Panofsky Grodecki and Bony. The conclusion is that there is no way to return to the original Gothic cathedral or the original audience. Artistic Integration in Gothic Buildings reassesses the traditional canon through a new pluralism of approaches and presents the Gothic church as an intricate and complex living monument that has been evolving over eight centuries and more.
