*From Maps to Metaphors*

Robin Fisher, Hugh Johnston, 2011-11-01 During the summers of 1792 94 George Vancouver and the crew of the British naval ships Discovery and Chatham mapped the northwest coast of North America from Baja California to Alaska Vancouver's voyage was the last and longest of the great Pacific voyages of the late eighteenth century Taking the art and technique of distant voyaging to a new level Vancouver eliminated the possibility of a northwest passage and his remarkably precise surveys completed the outline of the Pacific But to map an area is to appropriate it to begin to bring it under control and Vancouver's charts of the northwest coast were part of a process of economic exploitation and cultural disruption

Although he and the other great navigators of his age exercised no control over the ideas and enterprises spawned by their voyages their names have come to symbolize the consequences of European expansion good or bad From Maps to Metaphors grew out of the Vancouver Conference on Exploration and Discovery held to observe the bicentennial of Vancouver's arrival on the Pacific northwest coast It brings to light much of the new research on the discovery of the Pacific and illuminates the European and Native experience The chapters are written from a variety of perspectives and provide new insights on many aspects of Vancouver's voyages from the technology employed to the complex political and power relationships among European explorers and the Native leadership While it is no longer possible to celebrate the arrival to the northwest coast of explorers such as Vancouver their achievements cannot be overlooked The charts log books journals and specimens from these voyages are important sources of information and essential for the reconstruction of an image of the Pacific region and its people in the eighteenth century

**Feeding the Russian Fur Trade** James R. Gibson, 2011-11-18 James R Gibson offers a detailed study that is both an account of this chapter of Russian history and a full examination of the changing geography of the Okhotsk Seaboard and the Kamchatka Peninsula over the course of two centuries

**From Northeast Passage to Northern Sea Route** , 2022-09-12 The notion of a waterway north of Eurasia conceived in the first half of the sixteenth century remained only a dream for centuries due to ice unmapped

coastlines and a lack of geographical knowledge This volume is the first comprehensive scholarly account in English of the slow but steady exploration and commercial exploitation of the Siberian coastal waters and it proves that this was a truly international endeavour However in the end the Northern Sea Route as a through traverse route came to be used primarily by the Soviet Union for which it became a crucial vehicle for the geopolitical and economic integration of its vast territories As an international trade route the Northern Sea Route is only today about to win its way essentially as a result of global warming This being the case should we rejoice or despair    **Bering and Chirikov** Orcutt William Frost,1992 Collection of papers presenting interdisciplinary views and varying interpretations of aspects of the expeditions to Alaska by Bering and Chirikov including new data from Russian sources    **Géographe Canadien** ,1968    **Exploring Polar Frontiers** William James Mills,2003-12-11 Covers the entire history of Arctic and Antarctic exploration from the voyage of Pytheas ca 325 B C to the present in one convenient comprehensive reference resource Exploring Polar Frontiers A Historical Encyclopedia is the only reference work that provides a comprehensive history of polar exploration from the ancient period through the present day The author is a noted polar scholar and offers dramatic accounts of all major explorers and their expeditions together with separate exploration histories for specific islands regions and uncharted waters He presents a wealth of fascinating information under a variety of subject entries including methods of transport myths achievements and record breaking activities By approaching polar exploration biographically geographically and topically Mills reveals a number of intriguing connections between the various explorers their patrons and times and the process of discovery in all areas of the polar regions Furthermore he provides the reader with a clear understanding of the intellectual climate as well as the dominant social economic and political forces surrounding each expedition Readers will learn why the journeys were undertaken not just where when and how    **Explorations of Kamchatka, North Pacific Scimitar** Stepan Petrovich Krasheninnikov,1972 Krasheninnikov s report to the Russian Imperial Government of his 1735 journey to explore eastern Siberia    The Geography of Provisionment of the Fur Trade of the Okhotsk Seaboard and the Kamchatka Peninsula, 1639-1856 James R. between whites with superior arms and brave but outnumbered and poorly armed Natives Nothing could be further from the truth The Tlingits saw themselves as victors even as they formally ceded to the Russians the site of their village and fort now known as Sitka Setting aside ancient rules of story ownership a new generation of Tlingit clan leaders has decided to publish the stories told by their ancestors so that the Tlingit point of view would be known and succeeding generations would not forget their people's history Including Russian historical documents travelers accounts of information interactions between the formerly warring parties after the battles and Dr W Schuhmacher's work on the role played by British and American skippers this book inquires into and provides some answers to the fundamental question Who owns history Photographs of objects now in Russian and American museums from the favorite battle hammer of Tlingit war chief Katlian to the metal ceremonial hat Baranov commissioned for the peace ceremony enrich the book along with portraits of key historical figures and eighteenth and early nineteenth century charts of Tlingit territory Also included is the journal of Dmitri Tarkhanov a gazetteer a glossary Tlingit and Russian name lists and an index **The Oxford Companion to World Exploration** David Buijserset (ed),2007 Covering all aspects of global exploration from Antarctica to the North Pole The Oxford Companion to World Exploration examines the lives and expeditions of heroic and influential explorers This coverage includes biographies including Lewis and Clark Ferdinand Magellan Cheng Ho Hernn Cortés Ibn Battuta Vitus Bering and Christopher Columbus national expeditions including Portuguese British French Chinese Dutch and Spanish and navigational and marine sciences such as navigational techniques ancient and medieval navigation ocean currents and winds longitude cartography and aerial surveys The Companion's temporal scope ranges from the ancient cultures of Egypt Persia Greece Byzantium China Polynesia and Rome through to modern space exploration The articles have been written by leading scholars from across the globe utilizing the most current scholarship in the field of exploration studies The Companion contains 800 entries supplemented by 150 black and white and 50 full color photographs and maps Annotated primary source materials such as travel logs and personal letters supplement select biographies Each entry is signed by a leading scholar in the field contains a bibliography for further reading and is cross referenced to other useful points of interest within the Companion Published in association with the Newberry Library in Chicago the Companion will reproduce more than 100 images from its world renowned collection *Arctic Bibliography* Arctic Institute of North America,1956 *Труды Института океанологии* ,1964 *The American Neptune* ,1996 A quarterly journal of maritime history *Russian America* ,1999 *Russia in North America* Richard Austin Pierce,1990 *Steller's History of Kamchatka* Georg Wilhelm Steller,2003 Everything was of interest to Georg Wilhelm Steller who the Russian Academy of Sciences appointed as naturalist to Vitus Bering's second Kamchatka expedition Steller arrived in Kamchatka in 1740 sailed with Bering to discover Alaska in 1741 and composed his handwritten manuscript on Kamchatka in 1743 and 1744 That manuscript was finally published in German thirty years after his death and this first ever English translation of that German edition is most valuable for its descriptions of the natural and

human worlds that Steller found in the mid eighteenth century Steller's extensive natural history includes special contributions to the study of fish in which he described over thirty new species and two new genera and to ornithology which also includes the first descriptions of numerous species His careful observations of Kamchatka's Native peoples add to the small and invaluable collection of ethnographic and linguistic descriptions made during the initial acculturation process and the growth of a new economy based on the fur trade which changed their lives forever Steller's observations of the economy of Kamchatka and the role of the Cossacks is refreshingly frank He was the first scientist to suggest based on direct observation similarities between the ethnography and natural history of the Russian Far East and that of the newly discovered Alaska Steller's breadth and depth in recording the natural and human world of eighteenth century Alaska make this new translation an important reference for readers interested in all aspects of North Pacific and Russian American history

Peter Ulf Møller,Natasha Okhotina Lind,2003 From 1725 until his death in 1741 Vitus Bering commanded two of the most ambitious journeys of exploration in the 18th century Each required years of overland travel across Asia to reach desolate Kamchatka and the Pacific coast of Siberia where the crews had to build their own ships Only then could the search for the mythical Northeast Passage and the northwestern coastline of America begin During the last decade the discovery of forgotten documents in Russian archives has revitalised the study of these classic expeditions and the contributors to this volume are all part of the new scholarship Here they examine such topics as expedition historiography the participants daily life the beginnings of scientific ethnography and the connection between the expeditions scientific objectives and their political ends These political goals included the colonisation of northern Pacific islands and the North American coast and manifested themselves in two sets of instructions one genuine one false
