industry the proposed book utilises a case study design named the case of the Qatari gas industry The author employs a triangulation of data collection techniques to access empirical data analysing official documents and semi structured interviews a sample of the interview questions are included in an appendix to the proposed books In line with the qualitative nature of this proposed book a thematic Analysis is adopted to interpret data based on Dunning s eclectic paradigm at the micro level and Giddens structuration theory at the macro level In doing so this book connects theory with practice by investigating the preference for joint venture agreements in the case of the Qatari industry by the combined application of one of the most effective frameworks for explaining foreign direct investment named Dunning s eclectic paradigm along with the most complex sociological framework that offers a rich definition of organisational culture named Giddens structuration theory Audience could include academics professionals and graduate and senior undergraduate students
