## **Swift Carroll A Psychoanalytic Study:**

**Swift and Carroll** Phyllis Greenacre, 1955 This is a psychological study of two men apparently very different in many respects nearly opposites Only Dr Greenacre's deep psychological investigation reveals the intrinsic likeness which exists in all opposites With care and thoroughness she examines the lives and characters of the two authors and relates them to the themes and characters of their writings which have become English classics Gulliver and Alice are immortal and Dr Greenacre also succeeds in offering an explanation of their universal appeal Based on many years of real experience fathoming the unconscious Dr Greenacre applies the pathographic method with tenderness thoroughness caution and a willingness to state possibility rather than to assert downright certainty The fact that both Swift and Carroll were particularly uncommunicative and reticent regarding their personal lives makes this study even more fascinating because Dr Greenacre provides the key which inevitably opens a broad view of the inner workings of the writers minds From publisher description

*Semiotics and Linguistics in Alice's Worlds* Rachel Fordyce, Carla Marello, 1994 No detailed description available for Semiotics and Linguistics in Alice's Worlds     *Grotesque Anatomies* David Musgrave, 2014-10-16 *Grotesque Anatomies* is a study of Menippean satire in English since the Renaissance It consists of revisionist close readings of canonical works such as Eliot's *The Waste Land* and Pope's *Dunciad* among others and investigates how identifying them as Menippean satires changes our understanding of them The initial chapter offers a comprehensive account of the form from antiquity to the present day identifying its bifurcated development in the shorter form Seneca Lucian Julian and the longer more encylopedic form Varro Petronius Boethius and their subsequent fusion during the Renaissance It also contains an account of the critical reception of the genre with the term Menippean satire first being used by Justus Lipsius in 1581 Finally Menippean satire is described as a literary version of the grotesque and a brief theory of the grotesque in the modern period as radical heterogeneity is outlined This is also the foundation of a new definition of Menippean satire drawing on previous definitions by Frye Bakhtin and Kirk and revising them for the modern period The following chapters examine iconic works as examples of Menippean satire and of the grotesque Chapter 2 offers an overview of the nose in Menippean satire and comic literature generally and reads Rushdie's *Midnight's Children* in this context It also gives an account of metaphor as a grotesque transformation Chapter 3 examines the figure of the stomach in Menippean satire and symposiastic literature and reads Peacock's *Gryll Grange* in this context The link between the stomach as a figure of thinking in comic literature is the basis for an account of symbolic structuring as grotesque association Chapter 4 is a close reading of the scatological imagery of Pope's *Dunciad* and how scatology generally tends towards a cyclical metaphysics It also relates changes in print technology and copyright laws to the reticular scatological structure of the *Dunciad* Chapter 5 argues for Eliot's *The Waste Land* as a Menippean satire focusing on the rhetorical figure of the enthymeme as a missing premise as an example of under mindedness and as an ironic aspect of the fragmentation typical of late Romantic Menippean satires Chapter 6 examines

Urquhart's eccentric *The Jewel* as a satire on the referential function of language reading it in the context of projections for a universal language from this period. The final chapter identifies some key works by Derrida and Barthes as Menippean satires noting the resurgence of the form in some postmodern and deconstructive writing. The Annual Survey of Psychoanalysis, 1961

*The Darkroom* Anne Marsh, 2003 Anne Marsh's treatise on the art of photography traces its theoretical underpinning from the early debates between the rationalists and the fantasists through psychoanalytical interpretations to the theatre of desire. She investigates the role of photography in ghostly performances, the masking of desire and high camp aesthetics through to performance art and the role of the photographer as a gender terrorist as in the work of Del LaGrace Volcano. The study concludes with notable examples of postmodern photography as they have occurred in the Australian context. This ground breaking work by a leading Monash University academic will interest all students of photography and followers of recent trends in art and art theory. The Guide to Psychiatric and Psychological Literature, 1955

**American Women** Susan Ware, 2004 This latest volume brings the project up to date with entries on almost 500 women whose death dates fall between 1976 and 1999. You will find here stars of the golden ages of radio, film, dance and television, scientists and scholars, civil rights activists and religious leaders, Native American craftspeople and world renowned artists. For each subject the volume offers a biographical essay by a distinguished authority that integrates the woman's personal life with her professional achievements set in the context of larger historical developments.

**The Satirist** Theodore Draper, Leonard Feinberg, 2017-07-12 Satire takes as its subject the absurdity of human beings, their societies and the institutions they create. For centuries satirists themselves, scholars, critics and psychologists have speculated about the satirist's reasons for writing, temperament and place in society. The conclusions they have reached are sometimes contradictory, sometimes complementary, sometimes outlandish. In this volume Leonard Feinberg brings together the major theories about the satirist to provide in one book a summary of the problems that specialists have examined intensively in numerous books and articles. In part 1 Feinberg examines the major theories about the motivation of the satirist and then proposes that adjustment comes most closely to answering this question. In his view the satirist resolves his ambivalent relation to society through a playfully critical distortion of the familiar. The personality of the satirist, the apparently paradoxical elements of his nature, the problem of why so many great humorists are sad men and the contributions of psychoanalysts are explored in part 2 where Feinberg contends that the satirist is not as abnormal as he has sometimes been made to seem and that if he is a neurotic he shares traits of emotional or social alienation with many others. Part 3 explores the beliefs of satirists and their relation to the environment within which they function, particularly in the contexts of politics, religion and philosophy. Feinberg stresses the ubiquity of the satirist and suggests that there are a great many people with satiric temperaments who fail to attain literary expression. Ranging with astonishing breadth both historical and geographical, *The Satirist* serves as both an introduction to the subject and an essential volume for scholars. Brian A. Connery's introduction

provides an overview of Feinberg's career and situates the volume in the intellectual currents in which it was written
