

Sword The Cross

Rachel S Tattersall

Sword The Cross:

The Waning Sword: Conversion Imagery and Celestial Myth in 'Beowulf' Edward Pettit, 2020-01-14 The image of a giant sword melting stands at the structural and thematic heart of the Old English heroic poem Beowulf This meticulously researched book investigates the nature and significance of this golden hilted weapon and its likely relatives within Beowulf and beyond drawing on the fields of Old English and Old Norse language and literature liturgy archaeology astronomy folklore and comparative mythology In Part I Pettit explores the complex of connotations surrounding this image from icicles to candles and crosses by examining a range of medieval sources and argues that the giant sword may function as a visual motif in which pre Christian Germanic concepts and prominent Christian symbols coalesce In Part II Pettit investigates the broader Germanic background to this image especially in relation to the god Ing Yngvi Freyr and explores the capacity of myths to recur and endure across time Drawing on an eclectic range of narrative and linguistic evidence from Northern European texts and on archaeological discoveries Pettit suggests that the image of the giant sword and the characters and events associated with it may reflect an elemental struggle between the sun and the moon articulated through an underlying myth about the theft and repossession of sunlight The Waning Sword Conversion Imagery and Celestial Myth in Beowulf is a welcome contribution to the overlapping fields of Beowulf scholarship Old Norse Icelandic literature and Germanic philology Not only does it present a wealth of new readings that shed light on the craft of the Beowulf poet and inform our understanding of the poem's major episodes and themes it further highlights the merits of adopting an interdisciplinary approach alongside a comparative vantage point As such The Waning Sword will be compelling reading for Beowulf scholars and for a wider audience of medievalists

The Sword in the Age of Chivalry Ewart Oakeshott, 1998 The Resplendent image of the medieval knight is concentrated in the symbolism of his sword The straight two edged cross hilted knightly sword of the European middle ages was an object of vital importance a lethal weapon on the battlefield and a badge of chivalry in that complex social code Ewart Oakeshott draws on his extensive research and expert eye and hand for he has a special sense for the feel of a sword to develop a typology for and recount the history of the sword from the knightly successors of the Viking weapon to the emergence of the Renaissance sword that is roughly from 1050 to 1550 Within this time span two distinct groups of swords successively evolved Problems of dating are acute and evidence is adduced from literature and art as well as from archaeology for a sword or some parts of a sword could have been in use several generations after it first saw battle To deal with such overlap Ewart Oakeshott develops refines and illustrates a detailed typology of swords which takes in entire swords pommel forms cross guards and the grip and scabbard
