## **Sword And The Cross Reflections On Command And Conscience:**

**The Sword and the Cross** James H. Toner, 1992-01-30 The *Sword and the Cross* is a study of the relationships that exist between politics and ethics. Its intention is to point out that moral convictions conceived and implemented without political wisdom can be bankrupt and that geopolitical strategy formulated and effected without ethical character can be disastrous. Toner contends that politics and ethics are different sides of the same coin. Therefore commanders that is leaders in politics and government in diplomacy and in the military must develop both strategic sense and ethical intuition. A study of the relationship between the sacred and the profane, this book promotes an understanding of the ways in which power and purpose can and must be complementary. This study concludes that violence and conflict are part of human existence and that full and final redemption from our struggles is the gift of grace and not of human artifice. At the same time we have the burden and the glory of doing all we can to achieve our own safety and happiness which requires political and military prudence. The reconciliation of faith or conscience with power or command is the task of leaders who are informed by civic virtue. In turn civic virtue is the product of wise education rooted in serious study of what ought to be as well as of what is but ethically impoverished modern education too rarely asks questions about visions of the Good. Because these conclusions are rooted in a controversial religious and philosophical tradition they will generally challenge the accepted views in the field.

Wood, 2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization. However the subject is one that is by no means limited to any one religious tradition, civilization or period of history. Rather it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world. It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures, civilizations, nations and empires. For this reason this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in other religious traditions than Christianity. Attention is given to general works on church and state that treat the subject broadly not limited to any particular nation, religious tradition or single aspect of church state relations. Additionally there is material on major topics integrally related to church and state such as civil disobedience, civil religion, liberation theology, patriotism and nationalism. Finally sources are included on religion in international affairs and interfaith relations both necessarily linked to the subject of church and state as well as religion and

the economic order religion and human rights and the effect of religion on war and peace      Core Values for Military Leadership ,1996      *Proceedings - United States Naval Institute* United States Naval Institute,1992-12      Ethics for the Junior Officer Karel Montor,2001 Originally compiled and edited by the late Karel Montor a longtime professor of leadership at the U S Naval Academy with a foreword by VADM James B Stockdale USN Ret and now fully updated by a team from the Center for the Study of Professional Military Ethics at the Naval Academy this volume contains over one hundred case studies from and about active duty U S military officers facing ethical challenges on the job In a short narrative each case describes the ethical challenge faced by a junior officer It then asks readers what they think is the right thing to do in that situation This valuable hands on reference also includes discussion questions and an analysis of each case study      **Air University Library Index to Military Periodicals** ,1993      **American Book Publishing Record** ,1992      **Publishers Trade List Annual, 1992** ,1992      Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff,R R Bowker Publishing,1996-09      The Cross and the Sword Manuel de Jesús Galván,1975      **The Publishers' Trade List Annual** ,1992      Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004      *Subject Guide to Books in Print* ,1975      **Air & space power journal em Português** ,2006
