*Tourism and the Branded City* Stephanie Hemelryk Donald, John G. Gammack, 2016-02-24 Comparing the major Pacific Rim cities of Sydney Hong Kong and Shanghai this book examines world city branding Whilst all three cities compete on the world s stage for events tourists and investment they are also at the centre of distinct film traditions and their identities are thus strongly connected with a cinematic impression Using an interdisciplinary approach this book not only analyses the city branding of these cities from the more widely researched perspectives of tourism marketing and regional development but also draws in cultural studies and psychology approaches which offer fresh and useful insights to place branding and marketing in general The authors compare and contrast qualitative and quantitative original data as well as critically analyzing current texts and debates on city branding In conclusion they argue that city branding should contribute not only to regional development and identity but also to sustainable economic well being and public happiness *Walkabout* ,1965

**Watching the Sun Rise** Jacqui Murray, 2004-01-01 Historians have long claimed that a tradition of fear of Japan dominated Australian thinking about foreign affairs and defense after Japan s defeat of Russia in 1905 and that this fear remained widespread throughout the Australian population until the Pacific War This study of Australian reporting on Japan challenges that claim by exposing a culture of state censorship intimidation of the media and neglect of official public discussion of foreign affairs in the years 1931 1941 which resulted in newspapers radio and news reels projecting a collective national consciousness of Japan as a nation of little import despite very real fears in senior political ranks about Japanese designs on Australia Jacqui Murray s argument for the Australian media s

underestimation of Japan's threat is sustained by close examination of media practices publications and broadcasts which clearly show misleading representations of Japan before the Pacific War Watching the Sun Rise details not only government peace time media censorship but also war time propaganda flows from Australian British and Japanese sources into the Australian media and examples of cooperation and or espionage among media personnel The Reef Iain McCalman, 2014-05-20 Stretching 1 400 miles along the Australian coast and visible from space the Great Barrier Reef is home to three thousand individual reefs more than nine hundred islands and thousands of marine species and has alternately been viewed as a deadly maze an economic bounty a scientific frontier and a precarious World Heritage site Now the historian and explorer Iain McCalman takes us on a new adventure into the reef to reveal how our shifting perceptions of the natural world have shaped this extraordinary seascape Showcasing the lives of twenty individuals spanning more than two centuries The Reef highlights our profound desire to conquer understand embrace and ultimately save the world's most complex ocean ecosystem Opening with the story of Captain James Cook who sailed unknowingly into the southwest entrance of this vast network of coral outcroppings McCalman shows how Cook spent months navigating this treacherous underwater labyrinth struggling to keep his crew alive and his ship afloat sparring with deceptive shoals and wary native islanders Through a series of dramatic tales from intrepid explorers unwitting castaways inquisitive naturalists enchanted artists and impassioned environmentalists who have collectively shaped our ideas about the Great Barrier Reef McCalman demonstrates how this grand natural wonder of the world was built as much by human imagination as by the industrious beautiful creatures of the sea A romantic historically significant book and a deeply personal journey into the heart of a marine environment in peril The Reef powerfully captures the delicate relationship between humanity and the natural world
