looked She noticed that early physicists were being quoted in some of the books she was reading Why She wanted to learn more What is this quantum world and how do we fit into it She realized that greater minds than hers had written these books and she wasn't sure if she could understand them The concentration she needed was unavailable to her in the beginning Determination drove her forward however and in time the concentration came She was surprised when she began to see the lines cross between God not religion and science God appeared to be the ultimate scientist and not a god at all In fact He is very different from the human god she had learned of as a child There were many reasons to be afraid of that God She wondered why she had not come across a book that incorporated all of these subjects into one Had no one else seen the correlation Could she write something for her grandson that would help him understand what she now understood so clearly She began taking notes Those notes became When You Think About It **Secrets & Mysteries of the World** Sylvia Browne, 2005 From the Great Pyramids to Stonehenge amazing facts about some of the world's most mysterious sites The truth behind sacred and controversial objects such as the Shroud of Turin and the Holy Grail are brought to light *The Publishers Weekly*, 1886 Temples on the Other Side Sylvia Browne, 2008 The British National Bibliography Arthur James Wells, 2009 Bowker Annual Library and Book Trade Almanac Information Today Inc, 2006 As an on the job answer book a statistical information resource a planning and research guide and a directory and calendar The Bowker Annual Library and Book Trade Almanac 2006 delivers the hard to find industry news and information you need This acclaimed must have resource provides the following Expert reviews of the key trends events and developments that will influence your work in 2006 and the years to come Clear explanations of new legislation and changes in funding programs and how this will affect libraries Definitive statistics on book prices numbers of books published library expenditures average salaries and other budget crunching assistance A full calendar of events key organizations names and numbers of important individuals including e mail addresses and fax numbers and much more This fully updated reference tool makes it easy to stay on top of the developments that affect libraries booksellers and publishers alike and to find fast answers to the countless on the job questions you encounter Quill & Quire, 2006 *The Bowker Annual of Library and Book Trade Information*, 1989
